Zeppelin Passes Half-Way Mark on Ocean Flight

RADIO CONTACT
IS ESTABLISHED
WITH AMERICA

Mail Bag Is Dropped on
Azores—Horta Is Missed
as Graf Swings Over
Ocean.

SHIP'S ARRIVAL
LIKELY SUNDAY

Giant Dirigible Makes
First 2,500 Miles in 45
Hours for 56-Mile Average.

BY THE ASSOCIATED PRESS
The Graf Zeppelin has established
contact with the New World.

The first direct message from the
airship was received by the navy
department in Washington last night.
It said that at 7:05 p. m. (eastern
standard time), the ship was 50 miles
south of Pico, Azores. It was
moving northwest at a speed of
about 52 miles an hour.

The Zeppelin works at Friedrichshafen
a short time before had reported
that what few messages sent by
the radio operator on the dirigible
could be heard were barely distinguishable.

Portugal reported that a mail bag
was dropped on Santa Maria Island,
southmost of the Azores, while Horta,
capital of the island group, described
the disappointment of residents that
the giant airship had not flown over
that point.

The Azores represent the last out-
post of Europe and Africa and the
first landfall of the air-travelers, un-
less storms cause them to fly by way
of the Bermuda group, described
as the American mainland, sometime
on Sunday.

As the dirigible swung out beyond
the Azores it passed the halfway mark
of its flight. It was then about 2,500
miles from Friedrichshafen, which it
had covered in 45 hours and a half
or at an average speed of about 56
miles an hour.

From the position indicated in the
message received by the navy depart-
ment the airship had about the same
distance between it and Lakehurst.

DIRECT MESSAGE
RECEIVED IN U. S.

Washington, August 2.—(AP)—The
navy department tonight received a
direct message from the Graf Zeppelin
saying that at 7:05 p. m. (eastern
standard time) her position was 50
miles south of Pico, Azores, proceed-
ing northwest at a speed of 45 knots.

RADIO MESSAGE
RECEIVED MARINE

Chatham, Mass., August 2.—(AP)—
Operators at the Radio Marine Cor-
poration station here were in con-
nection for an hour tonight with the
Graf Zeppelin which was crossing
the Atlantic. A score of messages,
all of them either personal or press
dispatches, were received for relay to
their destinations. The operators said
they were too busy to ask the posi-
tion of the dirigible, whose operator
said he would communicate with them
later in the night.

MAIL BAG DROPPED
ON AZORES ISLAND

Ponta Del Gada, Azores, August 2.
(United News)—The Graf Zeppelin
dropped mail over the island of
Santa Maria at 8 p. m. local time
(3 p. m. eastern standard time) today,
a dispatch from that island said to-
night.

Hot Weather Menus

They should be more carefully selected than
at any time in the year—for just now jaded
appetites need to be tempted and the bal-
anced ration is a safeguard to health. Gro-
cery ads in this edition will give you many in-
teresting suggestions for new and tasty dishes,
and will draw your attention only to fresh-
er foods delivered at stores Saturday morn-
ing for Saturday selling. As to prices,
Constitution quotations are always "last"
and, therefore, lowest.

Contract Award
For Union Station
Expected TuesdaySENATE ACCEPTS
RHODES HOME GIFT

Resolution Offered by
Senator Terrell Is Passed
in Upper House
Without Opposition.

Without any opposition a resolution
was passed in the senate Friday ac-
cepting on the part of the state of
Georgia a magnificent gift of the
\$300,000 Rhodes mansion on Peach-
tree street to be used as a home for
the state department of archives and
history. The measure was passed
through the efforts of Senator Whaley,
of the 25th district, who obtained
a favorable report from the public
property committee and brought about
the passage of the bill in the senate
without any dissent.

BRIDGE COMMITTEE
APPROVES CHANGES

The bridge committee of council
this week approved recommendations
to council that the N. C. & St. L.
railway be granted permission to take
out the trusses on the north span of
the Forsyth street viaduct, recon-
structing that part of the viaduct up
to the center support and making a
plaza approach to the depot to be
constructed. This would be done at
the expense of the railroad.

It is understood that the railroad
agreed to do this work in the in-
terests of its new depot. The
council committee also suggested,
but did not make it conditional,
that the N. C. & St. L. extend its
work on replacing the superstructure
of the viaduct to the south end, which
is over the Central of Georgia tracks.

The N. C. & St. L. will not
agree to this until Friday. Recon-
struction of the north span of the
viaduct will include work beyond the
state property line, it was pointed
out by the committee. It was pointed
out that the Rhodes home, said property
being fully described in deed of con-
veyance, the consideration of said
deed being their love for the state of
Georgia and interest in the preserva-
tion of its records and historical docu-
ments, and in the education and wel-
fare of the citizens of Georgia, said
property to be held by the state of
Georgia forever in fee simple, condi-
tioned only that said property shall
be used by said state for historical
purposes, including the preservation
of historical emblems, documents
and records of all kinds bearing upon
the history of our state and nation,
and including also the housing of rare
volumes, manuscripts, books, docu-
ments, trophies, pictures, souvenirs,
relics, statuary and works of art per-
taining to the history and develop-
ment of the state of Georgia, which
may be obtained from loans, gifts, or
otherwise.

"Whereas, It is to the interest of
the state of Georgia that said gift
be accepted and due appreciation
thereof shall be recorded.

Therefore, Be it resolved by the
general assembly of the state of Georgia,
"That the gift of said property
be, and the same is hereby ac-
cepted."

City Scorches
As Mercury
Reaches 93.5

Hottest Day of 1929 Record-
ed—Little Relief in
Sight.

Clear skies and a blazing sun Fri-
day sent the mercury in the official
thermometer into regions which had
not been previously explored. This
year and a new high mark of 93.5 de-
grees was placed on the record books,
giving Atlanta and vicinity a taste of
the scorching weather which has been
prevalent in other parts of the coun-
try for many days.

C. F. von Herrmann, local meteor-
ologist, is not at all sure that this re-
cord climb will stand as such for more
than 24 hours since he anticipates an-
other climb today to the vicinity of
93 and possibly a little above. The
skies, he states, probably will remain
clear during most of the day but there
will still be a chance for a cooling
shower in the afternoon.

Looking back on the weather bureau
records for the past two months, it is
found that up to Friday the mercury
had not succeeded in getting over 92.
This mark having been recorded June
21 and July 7. Indicative of a rather
moderate summer as regards tempera-
ture, it might be noted that previous
to Friday, the mercury had climbed
over the 90 mark on only five times,
twice in June and three times in July.

Nothing approaching an all-time
heat record has been reached since the
top figure for July is 101, recorded in
1925, and the top figure for August,
100, recorded the same year.

FORMER FINANCE
EXPERT OF ITALY
FIRED BY DUCE

Rome, August 2.—(AP)—Ernesto
Belloni, former mayor of Milan and
Italy's financial expert at the peace
conference in 1919 and the repara-
tions and debt conferences, was dis-
missed indefinitely from every politi-
cal and public activity today by Pre-
mier Mussolini.

It was late evening before the pub-
lic got wind of what was said to be
one of the greatest scandals in the his-
tory of the fascist party. Millions
of lire were said to be missing out
of a loan of \$30,000,000 to the city
of Milan made by the New York bank-
ing firm of Dillon, Read & Company.

MEMPHIS ELECTION
POSTS ARE GIVEN
TO TWO NEGROES

Memphis, Tenn., August 2.—(AP)—
For the first time since reconstruc-
tion days, negroes have been appointed
election officials here. The list of
registrars announced by the new coun-
ty election commission included the
names of two negroes, an undertaker
and a school teacher. They will serve
in a precinct with a heavy negro vote.
As a whole, the list of registrars
was a little changed from that ap-
pointed by the old commission.

\$10,000,000 DAM
NEAR WEST POINT
APPROVED BY U. S.

Preliminary Permit Is-
sued for Power and
Flood Protection Proj-
ect on Chattahoochee.

Washington, August 2.—(AP)—Ap-
proval of application for a prelimi-
nary permit by J. Smith Lanier and
others for a combined power and flood
protection project on the Chattahoo-
chee river between West Point and
Franklin, Ga., was announced here to-
day by the federal power commis-
sion.

The permit is effective for a period
of two years.

The permit to J. Smith Lanier was
granted after application of the Col-
umbus Electric & Power Co. had been
denied. It is said that the cost
of the development is expected to
amount to between \$10,000,000 and
\$12,000,000. Development of between
15,000 and 30,000 horsepower is
planned, the current to be purchased
by the West Point Manufacturing
Company.

It is thought that sale of the elec-
tricity will finance the flood control
plan.

PLAN SOLVES
PROTECTION PROBLEM.

Ten years of continuous effort to
solve the flood protection problem for
West Point are represented in plans
for the dam, which will serve the
dual purpose of protection for that
city and for power purposes.

The financing plan for the dam is
thought to be unique among American
flood projects. The development will
be financed solely through the sale of
hydro-electric power to be generated
so that not a cent of federal, state,
county or city funds will be used.

The West Point Manufacturing Com-
pany will buy the power generated
and associated with this company in
the project are McDonald and Com-
pany, architects, of Atlanta, and the
Hardaway Construction Company, of
Columbus, which will build the dam.
Work on the designs for the dam will
be begun immediately by McDonald
and Company, it was said in Atlanta
Friday.

Surveys have been conducted for
the past two years along the river in
the vicinity of the proposed site. It
is said that the project may include
two dams, one a mile above West
Point and the other eight miles
above the city, while, on the other
hand, it may be found practicable to
construct only one dam.

Protection from water of flood
stage will be assured by constructing
the project at a much greater height
than the normal need for power pur-
poses, thus checking any unusual wa-
ters, which will be released through
the dam gradually. It is figured that
were the 1919 flood at West Point
repeated, the water could be kept
18 feet below the street level.

Nude Bathers
Barred Using
City's Pools

All Other Restrictions Re-
moved by Action of Park
Commission.

Nude bathers and those afflicted
with diseases of the skin are barred
from municipal bathing pools Fri-
day under revised rules promulgated
Friday by the parks committee of city
council.

Every privilege extended to the pub-
lic in any privately owned pool will
be granted to patrons of the city
pools, the new rules set out. Action
of the committee was taken following
a decrease in attendance due to the
fact that old rules, among other things,
restricted men from teaching women
how to swim. There also were a num-
ber of other prohibitions which re-
acted to drive the public to private
bathing centers.

Bathers may come to the parks clad
in bathing suits and enter the pools
through the dressing rooms and leave
the same way, under the new edict of
the committee, but they may not
lounge in the park.

In listing the new set of rules gov-
erning the pools it was specifically
set out that "there shall be no other
restrictions in the pools as long as no
crime or violence is committed."

Gambling was tabooed from the golf
links and galleries also were ruled out.
Under revision of golf course restric-
tions, except in cases of tournaments,
no practice will be permitted in parks
except that portion set aside for golf
purposes.

The committee will ask city council
Monday to approve enactment of an
assistant manager of parks because of
the arduous duties which now fall on
the shoulders of L. L. Wallis, super-
intendent. Mr. Wallis needs an assis-
tant, according to committee members.

Commenting on the swimming
pools, Councilman John A. White de-
clared the water used is absolutely
pure.

"It comes from the same pipes
which furnish drinking water for At-
lanta," he said. "It is the purest
water in the world and we keep the
tanks clean."

HEAVY BUSINESS
AWAITING SOLONS
IN COMING WEEK

Week-End Recess Fore-
runner of Important
Legislation To Come Be-
fore Senate and House.

BY ROBERT H. WILSON.
Members of both branches of the
general assembly closed their desks
for the week-end recess shortly be-
fore noon Friday after admonitions
from their respective presiding offi-
cers that they would have "to get
down to business" during the coming
week.

In the house of representatives a
final vote is still pending on the Cul-
pepper classification tax bill, the third
measure on the schedule of tax legis-
lation arranged by the rules commit-
tee. Debate on the bill started Fri-
day with a short speech by Represen-
tative Culpepper. Numerous amend-
ments were proposed revising sections
of the bill.

Principal developments of the short
senate session were adoption of a
resolution by Senator Whaley accept-
ing for the state the A. G. Rhodes
residence in Atlanta to be used as a
home for the departments of archives
and history, and passage of the law
admitting business records as
evidence when proved authentic.

Just before adjournment, President
Neill delivered a short address to the
senators in which he warned them
that important legislation would be
placed before the body next week and
that every member would have to be
present in order to expedite the task
in hand. Speaker Russell, of the
house, delivered a similar statement
from the rostrum urging representa-
tives not to request leaves of absence
while such vital legislation is under
discussion.

In connection with his warning,
the senate chairman introduced a
resolution which would refuse absence
permits to any senator during the re-
mainder of the session except for pro-
vidential causes. Measures mention-
ed by the president as part of the
upper house calendar beginning Mon-
day included the Boykin gasoline tax
bill, the Key bill, the bill tabled
by the president as part of the
discussion of the house classification
tax bill, and the bill tabled by the
house immediately after its introduc-
tion were defeated by vote of the house,
90-17. Most of those who took the

LAWYER WOUNDS
GIRL, KILLS SELF

Story of Accidental Dis-
charge of Pistol Con-
tradicted by Evidence,
Sheriff Says.

Elizabeth, Tenn., August 2.—(AP)
John Burnette, prominent young at-
torney, accidentally wounded his 17-
year-old ward, Virginia Amaral, late
last night, called a physician to care
for her and then shot himself to
death.

Mrs. Burnette, who married the 27-
year-old attorney only three months
ago, was unable to explain her hus-
band's act, other than to advance the
theory he had been overcome by grief.

She said Burnette had been explain-
ing to her the use of a pistol, which
was accidentally discharged, the bullet
striking Miss Amaral in the hip.

Burnette drove to Elizabeth from
the summer mountain camp where he
and his family had been spending
several weeks and returned with a
physician who ordered Miss Amaral
taken to a hospital.

The attorney then picked up the
pistol, walked to the kitchen of the
house and fired a bullet into his
breast. Stumbling back dramatically,
he said "good-bye" and slumped to the
floor at his wife's feet.

Sheriff Moreland, who investigated
the shooting, said the stories of the
witnesses contradicted evidence. The
physician and Mrs. Burnette said the
suicide had been committed with the
same pistol which wounded Miss
Amaral.

A coroner's jury returned a verdict
of suicide and the sheriff indicated
his investigation was "only routine."

The shooting was the second trag-
edy in a few months for Miss Amaral,
who was of Mexican descent. Some
time ago her mother was slain by her
step-father, J. L. McMaron, who now
is serving a sentence in the state peni-
tentiary for the crime.

The girl was taken into Burnette's
home.

Burnette had taken an active part
in the recent Elizabeth textile
strike. He was prominently identified
with the riot at Valley Forge, when
an 18-year-old girl striker wrested a
pistol from him and held a detachment
of state guardsmen at bay until tear
bombs drove her to cover. Burnette
at the time was serving as a special
deputy.

Physicians said Miss Amaral would
recover.

Examination Fair But Hard,
Says Edison Award Winner

Newspaper Alliance.)

When I was about 10 years old
I was given a chemical craft art set

peculiar magnetic effect which I have
never had explained to me. I hope
to find out some time with further
study what the phenomenon is.

I took a general college preparatory
course, but I'm afraid I never studied
very hard. I saw a notice of the con-
test in the newspapers but entered
only when my grandfather urged me
to. My grandfather, Wilbur Brother-
ton, has been interested in hybridizing
plants.

My favorite sports—you can't com-
pare your likings for sports and
science—are tennis, fencing and swim-
ming.

I hope to go to the Massachusetts
Institute of Technology and some day
be a chemical engineer. As to money
I only want enough to be independent.

I never expected to win the scholar-
ship contest. I am very happy to have
won it and have the opportunity to
go to a fine university and make con-
tacts with men foremost in their
fields.

I'd like to correct an erroneous im-
pression. There is no such thing as
a successor to Mr. Edison. That would
be impossible and I am not so foolish
as to think that.

The examination given I thought
fair but I found all the questions
tough and worked until the last 10
minutes of my time.

I wish more boys could have the
same opportunity that I am going to
have.

WILBUR HUSTON
GETS SCHOLARSHIP.

West Orange, N. J., August 2.—
(AP)—A bespectacled 16-year-old boy
who is a hobbyist today was selected as
the protégé of Thomas A. Edison.

Chosen first out of a field of com-
petitors from 48 states of the
Union and the District of Columbia,
Wilbur S. Huston, of Seattle, Wash.,
will spend the next four years at the
Massachusetts Institute of Technology,
the school of his choice, with all ex-
penses paid by the inventor.

Unassuming and self-confident, Hus-
ton met the announcement of his suc-
cess with no outward show of emo-
tion.

PRODUCER'S WIFE HELD FOR SECOND DEGREE MURDER

Los Angeles, Cal., August 2.—(AP) Mrs. Alexander Pantages, wife of the theater magnate, yesterday was held for trial in superior court here on a second degree murder charge growing out of an automobile collision which

cost the life of Joe Rokumoto. The trial was not set. Attorneys for Mrs. Pantages declined to offer any defense testimony at her preliminary hearing after a motion for a dismissal had been denied. They said this had been done so the defense evidence might not be disclosed before the trial. Three police officers testified that Mrs. Pantages was intoxicated at the time of the collision and that she had used abusive language.

BROOKS COUNTY TO GET MILLION FROM TOBACCO

Quitman, Ga., August 2.—(Special.)—Brooks county will get more than a million dollars out of tobacco this year in the conservative estimate of leading farmers. The county marketed 3,000 carloads of watermelons, which brought in over a half-million and the tobacco money added to this is putting a new complexion on business. E. J. Pedrick, a leading farmer

here, sold three truck loads of tobacco on the market here yesterday and got a net total of \$2,547.13. He has 50 acres in tobacco and will average 1,000 pounds or more to the acre. He has already sold \$5,500 worth and expects to get at least \$10,000 for his tobacco crop. F. B. Walker, of Barney, has 90 acres in tobacco and will market over 100,000 pounds. He has sold over 25,000 pounds already and is very much pleased with the prices. W. R. Blease and sons of Barney, have over 60 acres and are getting good prices. A good many negro tenants on these big farms have small acreages in tobacco and are getting good money.

ATTACK ON GIRL CHARGED TO MAN HELD IN COLUMBUS

Columbus, Ga., August 2.—(AP) James Daughtry was committed to jail late yesterday after a hearing before Justice of the Peace W. Paul Miller on a charge of attacking a girl under 14 years of age. Daughtry was arrested on a statutory charge preferred by the girl's father but when evidence showing the child's age was submitted the assault warrant was issued. Bond for the original charge was set at \$250. Daughtry protested his innocence at the hearing.

Page Corporation Sells Durham Sun To Morning Herald

Durham, N. C., August 2.—(AP) The Durham (N. C.) Sun, afternoon newspaper, to the Durham Morning Herald was announced here today by the R. W. Page Corporation, which has published the evening paper for the last seven months.

SNOOK PREMEDITATION IN MURDER IS DENIED

Counsel Attempts To Discredit State Witness in Cross Examination.

Columbus, Ohio, August 2.—(AP) Dr. James H. Snook's attorneys pounced upon two state witnesses in cross-examination today to discredit the charge of premeditated murder on which the state hopes to send the former Ohio State professor to the electric chair for the killing of Theora K. Hix. Defense Attorney John F. Seidel cross-examined Coroner A. J. Murphy for an hour and a half in an effort to swerve him from the statement that the deliberate severing of the co-ed's jugular vein, after she had been beaten with a hammer, was the direct cause of her death. The indictment against Dr. Snook bases the charge of premeditation upon this act, which Dr. Snook is alleged to have admitted in a signed confession and later in an interview with newspapermen, explaining in both instances that he severed the girl's jugular vein with his pocket knife to relieve her suffering from hammer blows. Attorney Seidel asked the coroner if it were not possible that the hammer wounds on the girl's head had produced death rather than the hemorrhage from the gash in her neck. Called Improbable. It was possible, Coroner Murphy admitted, but he did not consider that it was probable in this case. The use of the defense made of Constable John Guy's testimony was to impress upon the jury of 11 men and one woman that Fisher road, at the edge of the rifle range where the killing occurred, was widely used as a place for "necking parties" at night and that one of the constable's duties is to suppress this practice by patrolling the road and keeping all automobiles moving. Dr. Snook, a married man with a wife and child, would hardly have

gone to his place with Theora Hix on the night of June 13 if he had any idea of slaying her, for he might have encountered any number of automobiles along the route, Defense Attorney Max Seyfert intimated in questioning Constable Guy. Nine Witnesses Called. Nine witnesses, including Coroner Murphy and Constable Guy, were called by the state today. When they had finished their testimony, they had for the most part contributed only to that part of the state's case establishing the circumstances of Miss Hix's murder. Court will be convened for a half-day session tomorrow at the request of the jurors, who are eager to proceed with the trial and to get it over.

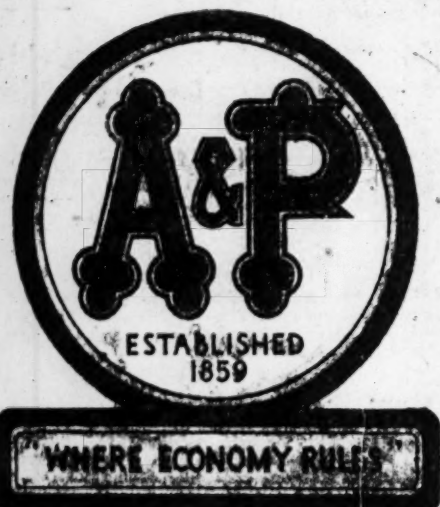

Chicago, August 2.—(AP) Chicago's ice cream workers have decided to strike, so to speak, when the iron is hot. The union, which numbers 450 men, a majority of the city's ice cream makers, met last night and decided to try to force the manufacturers to recognize their organization and also to try to get higher pay and shorter hours. They decided, however, that it was no time to try to make the public "ice cream conscious," the mercury just having dropped about 20 degrees. So the strike was set—for the next hot wave.

SWEETHEART SLAYER SMILES ON GALLOWES

Beitzel Goes to Death Without Sign of Emotion—Denies Guilt to End.

San Quentin Prison, Cal., August 2.—(P)—Russell St. Clair Beitzel, young civil engineer, convicted of having killed his common law wife, Miss Barbara Mauger, 19, of Philadelphia, was hanged here today.

Before he started his march to the gallows Beitzel received a telegram from his mother, Mrs. Catherine Beitzel, of York, Pa., bearing a message of blessing.

The execution was witnessed by 32 spectators. Beitzel smiled at the crowd and the hangman and remarked, "Did you want to make a couple of practice drops?"

Since he was convicted in Los Angeles September 20, 1928, Beitzel had maintained his innocence. After he was placed in the death cell here he appealed to Governor C. C. Young for a reprieve, saying Miss Mauger was still alive but feared to come to

his aid because of charges were pending against her in Philadelphia. Investigation showed this to be untrue and Governor Young refused to interfere.

Testimony at Beitzel's trial showed he had brought Miss Mauger to Los Angeles from Philadelphia and had lived with her. The girl's body later was found in the hills. She had been shot and an autopsy showed she was soon to become a mother.

Beitzel left letters to each of his two sons, Russell and Robert, of Lancaster, Pa., and another to his mother. He had been married to Mrs. Mary Thomas, of McKeesport, Pa., who said he deserted her and their small son five years ago. Mrs. Jean Mellinger Beitzel, of Lancaster, Pa., mother of two children, said she had separated from her husband because of his friendship for Miss Mauger.

BACK TO CHINA

Jung Hong Must Go to Native Land, Sibley Rules.

Savannah, Ga., August 2.—(P)—A 28-year-old Chinaman named Jung Hong, must be deported to China, Judge Samuel Sibley, of Atlanta, jurist of the United States court for the northern district of Georgia, ruled here today.

Judge Sibley came to Savannah to hear the appeal of the Chinaman who had been contesting deportation. The ruling denied the appeal and sustained the commissioner of immigration in Savannah who ordered Jung Hong deported several weeks ago.

Counsel for the Chinaman served notice today that the case will be appealed to the United States circuit court of appeals. Jung Hong claims that he was born in this country.

DR. HARVEY W. COX TO PREACH SUNDAY AT DRUID HILLS

Dr. Harvey W. Cox, president of Emory university and one of the best-known laymen of the Methodist church, will preach at Druid Hills Methodist church at 8 o'clock Sunday night in the absence of Dr. R. L. Russell, closing in the east.

Dr. Cox is a graduate of the University of the South and president of Emory university. He is a lay preacher and leader of the North Georgia conference.

Launched on Plan for Special County Tax

**Ragsdale Asks
of Mayors of
Municipalities in
County.**

Mayor I. N. Ragsdale, municipal commissioner of Fulton county, including Atlanta, East Point, College Park and Hapeville, will vigorously oppose passage of a bill now pending in the state legislature which would permit the Fulton county commission to levy a special county-wide tax for establishment and maintenance of sewerage, water and parks systems.

Mayor Ragsdale Monday will ask city council to name a special committee to fight this proposed tax measure. He also has sent letters to the city council of Hapeville, Mayor E. J. Barrett, of College Park, and Mayor J. A. Ragsdale, of East Point, asking their co-operation in the opposition move.

In his letters Mayor Ragsdale points out that the bill, now before the legislature, would permit the county commissioners to levy a tax on all property within all municipalities in the county, as well as on that outside the various city limits, for improvements for the benefit only of residents outside any corporate limits. He urged the injustice of such a proposal and asked his fellow mayors to take whatever action they thought best to oppose the measure, should they be so disposed.

Letters also have been sent to Fulton county representatives in the leg-

islature and to the senator from this, the 35th district, asking that they oppose the bill.

LAST PERFORMANCE OF SHAW'S COMEDY TO BE SEEN TONIGHT

Scoring a success before a capacity audience Thursday evening, George Bernard Shaw's brilliant comedy, "You Never Can Tell," will be presented for its final performance by the Civic Theater players at 8:30 tonight, in the White Barn, corner Peachtree and Fourteenth streets.

Gwynne Burrows, director of the Civic Theater, announced that the next production of the summer series will consist of three one-act plays to be staged the latter part of August.

MAN IS SENTENCED

**Prison Term Meted Out on
Guilty Plea to Burglary.**

Ed Russell, alias "Buster," drew a term of from two and a half to five years Friday when he pleaded guilty in Judge G. H. Howard's division of Fulton superior court to burglary charges. Russell was charged with breaking into the home of Sarah F. Stinson, at 714 Neal, N. W., and Mamie Marshall, at 695 Neal, N. W., on July 18.

FOWLER ENGAGED TO TEACH BEREANS AT CAPITOL VIEW

E. L. Fowler, prominent Atlanta attorney, and one of the city's leading Biblical students, will teach the Berean class of the Capitol View

E. L. FOWLER.

Baptist church during the month of August, it was announced Friday by D. A. Ratliff, teacher of the group. Attractive musical programs have been arranged for every Sunday during the month, and it is expected that attendance will reach a high mark.

The Berean class recently held an attendance contest with the Fidelity class of the same church and many new members were enrolled.

TOWER CAPACITY IS THREATENED WITH 395 GUESTS

Crowded conditions in Fulton tower, caused by a steady influx of prisoners during the past few weeks while courts were in recess, will be relieved to a degree when Judge Jesse M. Wood holds a special session of city criminal court.

Between 75 and 100 prisoners will appear in city court Monday and efforts will be made to dispose of a majority of the cases, it was said at the offices of Solicitor John S. McClelland.

The tower's capacity, which is 400 prisoners, was threatened Friday morning when roll call showed the jail population to be 390. During the afternoon the number rose to 395.

U. S. Aid for Steiner Clinic Depends on Assembly Action

The federal government will aid the state of Georgia in a fight against cancer if the state legislature will look with favor upon a measure before that body providing for the erection of a building at the Steiner clinic in Atlanta for the use of people of the state of Georgia living outside of Fulton county, according to state Senator William J. Harris. He spoke before the senate and house committee on hygiene and sanitation.

"It is not my purpose to try to tell you members of the legislature what you should do but I am simply here to give you some information in my possession," Senator Harris said.

"The federal government is preparing to co-operate with the state in the erection of a building at the Steiner clinic and the Rockefeller foundation in a movement to find the cause and cure of cancer. Bill No. 1 before the house of representatives provides for the erection of a building at the Steiner clinic to be used by the people of Georgia. At present statistics show that one person out of five dies from

cancer. More people die in this country in a year from cancer than were killed in the World War. The federal government has spent millions in fighting hog cholera and other diseases of cattle and stock and it is now ready to spend money fighting diseases of mankind."

Senator Harris said the government would more than match any money spent by the state for this purpose. "At present the Steiner clinic has only about \$25,000 worth of radiums," he said. "I believe the government would increase this to \$250,000. It certainly ought to have this amount."

The state of Georgia has given practical aid in the fight against tuberculosis according to the senator, who said cancer is a far more deadly disease.

"I feel sure that the members of the legislature will be willing to begin this movement in Georgia," Senator Harris said.

After his speech every member of the committee informed the senator that they would not only support the measure but would work enthusiastically for its passage.

COUNCIL TO PASS ON NEW VIADUCT DAMAGE CLAIMS

Appropriations will be considered by city council Monday following the Atlanta bond commission's approval Friday of additional architects' fees in connection with the school building program, approval of payments for adjusting the new viaduct, Central avenue and Pryor street viaducts, and of several sewer and waterworks projects.

G. Lloyd Preacher Company, "for extras for surveys and measuring old buildings, plans for contemplated school buildings and delays in school buildings being completed," received the largest appropriation to be considered, \$29,101.27. All appropriations were investigated by the city comptroller before being recommended for payment.

Damage claims in connection with adjustment of buildings to the new viaduct, were approved as follows: Connolly Realty Company, \$25,000; J. N. Hirsch, \$17,500; Charles and J. N. Heinz and Mrs. T. R. La Fountaine, \$18,801.30; Apts. Brothers & Loeb, \$3,200.

Construction of a six-inch water main in Floyd street from Vanoy to Ellis, at a cost of \$2,450 was approved.

The following sewer projects were approved: Storm sewer from Gilbert street to W. Vanoy, \$11,750; Monument avenue storm sewer, \$4,500; storm sewer from Gaston street and Sophia Place southeasterly to the Wilkes street sewer, \$2,250; storm sewer in Ashby street, \$700; storm drain at Stewart avenue and Maryland avenue, \$700; culvert across Carroll street, \$700.

Six other sewer projects were held up by the commission pending further investigation.

STATE PRISON BODY WILL HEAR BURNS' APPEAL THURSDAY

The state prison commission next Thursday will hear a petition for clemency filed by Robert E. Burns, of Chicago, now serving a sentence on the Campbell county chain-gang on a robbery charge. Burns escaped several years ago, went to Chicago and won success as a magazine publisher. His identity as an escaped Georgia convict was revealed by a woman and he was taken into custody and returned to Georgia to finish serving his sentence. He was charged, with two other men, with robbing a grocery store. The robbers obtained only \$4 in their attempt.

BREMEN ARRIVES AT GERMAN PORT ON RECORD TRIP

Bremen Haven, Germany, August 2. (AP)—The North German Lloyd liner Bremen came home to Bremerhaven today after its maiden round-trip voyage to New York, on both laps of which it established new trans-Atlantic crossing records.

It docked here at 7:30 a. m., completing the voyage from New York in a bit more than six days. Its crossing record from New York to Plymouth, England, was four days 17 hours and 32 minutes.

When the Bremen pulled into "Columbus dock" she was enthusiastically cheered by a huge crowd, while representatives of the government and the Bremen senate went aboard by means of a special tug in order to greet the officers of the record-making liner.

By means of the catapult about the Bremen the airplane carried on board brought part of the ship's mail to port within 5 1/2 days after leaving New York, or three days less than was possible with the older boats in use.

INSANE SLAYER CLOSELY GUARDED TO BLOCK SUICIDE

Columbia, S. C., August 2. (AP)—T. Earl Robertson, 55-year-old Spartanburg man, who in a mad frenzy killed four persons and wounded another with an axe there yesterday, for the insane here under guard to prevent him from carrying out threats to take his own life. Physicians pronounced him violently insane.

Robertson's friends said he had been in ill health for several weeks. He told officers he had attempted to commit suicide about three weeks ago by throwing a chain over a high tension wire. Officers said that during their first conversations with him, he gave no sign that he knew he had killed the four men.

Dr. E. L. Herger, who examined Robertson at the state hospital, said he seemed to have "a great tendency to destroy himself."

Officers bringing him here said he repeatedly expressed a desire on the train to kill himself.

Robertson is married and has a son, T. E. Robertson, Jr. His victims were all married and had families.

PRESIDENT HOOVER GOES TO VIRGINIA FOR THE WEEK-END

Washington, August 2. (AP)—President Hoover left the White House this afternoon for a week-end visit to his fishing lodge near Madison, Va.

Besides Mrs. Hoover and their youngest son, Allan, the presidential party included Attorney-General Mitchell and Postmaster-General and Mrs. Brown.

An invitation was extended to Chairman Smoot, of the senate finance committee, but he did not find it possible to make the trip today. If possible, he intends to proceed to the Rapidan preserve tomorrow where he and the president are expected to discuss the current revision of the house tariff bill by the finance committee.

Shell-Torn Flag To Be Presented To State Museum

An old, shell-torn and faded piece of bunting, once the proud gonfalon of the 1st South Georgia regiment of Georgia infantry, is to be presented to the state through Miss Lillian Henderson, superintendent of the Georgia soldier's commission.

The old battle flag was turned over to Miss Henderson by J. A. Woodall, of Stone Mountain, color-bearer of the regiment and one of its four survivors, with the request that it be placed in the state's historical museum with other relics of the War Between the States.

Miss Henderson recites an interesting history of the flag.

Its baptism of fire was received at the first battle of Manassas on July 21, 1861. After this battle, the banner lost its standing as the regimental colors because of its resemblance to the United States flag, but it never lost its place in the hearts of the boys who followed it into their first battle of the war.

Short-lived as was its field service, it bears the marks of battle. Almost in the center there is a gaping hole, supposedly from a shell, while its folds hide numerous smaller snags.

The flag resembles the design of one of the earliest flags of the United States. There are, but three stripes, however, two red and one white. There is a field of blue in the upper corner next the staff, on which there is a circle of 11 stars. Embroidered in the circle are the words: "Repel the Invader."

The last reunion of the veterans of the 1st South Georgia was held July 22, when it was decided to present the flag to the state.

RIDLEY M. JUSTIS IS RETURNED HERE ON FEDERAL CHARGE

Ridley M. Justis, who disappeared the day his three-year probationary sentence was revoked by Judge Sibley, more than five months ago, arrived in Atlanta Friday morning in the custody of government officers, having been brought here from Philadelphia where he was taken into custody Wednesday.

He was placed in Fulton tower and is to be brought before Judge Sibley again this morning at which time it is understood that he will plead guilty to two indictments charging violation of the prohibition laws.

REV. H. H. STRATON TO SPEAK SUNDAY AT OAKLAND CITY

The Rev. Hillyer H. Straton, assistant pastor of the Calvary Baptist church of which his father, Rev. John Roach Straton, D. D., is pastor in New York, will supply the pulpit of the Oakland City Baptist church Sunday morning at 10 o'clock in the absence of the pastor, the Rev. Adiel Jarrett Moncrief, Jr., who is conducting a meeting in South Carolina.

Mr. Straton is well known in Atlanta and in the south, having been educated at Mercer university, Macon. Mr. Straton and Mr. Moncrief were college mates.

THREATS TO KILL WIFE ARE CHARGED TO WAR VETERAN

George S. Russey, Jr., World War veteran, was arrested Friday afternoon by county police on a peace warrant sworn out by his wife, Mrs. Josephine H. Russey, who alleged that he had threatened her life.

County Patrolmen Webb and Patrick took Russey into custody near his wife's home, on Peachtree road, and lodged him in Fulton tower. Carl Hutcheson, attorney for Mrs. Russey, said that the prisoner is charged with calling his wife over long distance telephone from Birmingham and threatening her life.

AMERICAN'S JOKE ON HIM, SPANISH SAY

**Attempt to Play Prank Ends
in Escorial Jail—Offense
Serious.**

Madrid, August 2. (AP)—In the historical town of Escorial, Backey J. Dee, of Chicago, today still was confined in jail as a result of what he claims was a thoughtless and ill-advised prank in taking from a wall of "The Little Palace of the Prince," which is a royal palace, a valuable porcelain plaque of ancient design which is a part of national treasures of Escorial.

The incident occurred last Wednesday when Dee and his wife, among a party of 25 tourists, visited the palace. Dee at first would say only "it is all a mistake. I have done nothing."

Later he said that after drinking some he visited the palace with a group of friends and half an hour after the plaque had been taken it was found by guards and restored to its place on the palace wall.

Dee at first was granted considerable liberties in the Escorial jail but yesterday was placed "incommunicado." The people of the town seem to show no feeling against the American tourist. They laugh and say the joke seems to be rather upon him.

Judicial and police authorities consider the matter more seriously but not bitterly. Unofficially it is stated Dee may have to continue confined somewhat longer, then may be released provisionally under bail pending formal trial.

However innocent the intentions, the authorities feel the American

must be punished in order to maintain the dignity of the government and the royal household, but the authorities do not seem inclined to be more severe than necessary to teach a lesson.

Some legal authorities suggest that after "provisional release," Dee might be allowed to leave Spain on the condition that he report once a month to the Spanish consul in whatever country he visits.

BODY OF LINEMAN RETURNED TO HOME

Brunswick, Ga., August 2. (AP)—The body of Frank W. Ligon, 30, who

was electrocuted here yesterday while working on a 6,000-volt line lay taken to his home at Hattiesburg, Miss.

TRAIN KILLS MAN LYING ON TRACK

Wilton, Ga., August 2. (AP)—Walter Bird, 38, lying on the tracks of the Atlantic Coast Line at here, was killed last night by an unbound train. The engineer said he sighted Bird after rounding a curve too late to halt the train. He arrived by a wife and three children.

THERE IS SUCH A DIFFERENCE IN BREADS

Compare Merita for FINEness of Grain

A fine, close grain is characteristic of a better loaf of bread.

It indicates, first, the finest of ingredients. Every Merita ingredient is laboratory tested to meet an exacting standard.

It indicates skillful mixing, processing and baking. Our laboratory directs every step in producing a loaf of Merita bread.

The tiny little air cells keep out the air—and keep the flavor in—while baking, and afterwards.

Notice Merita's finer grain.

PERMANENT LOW PRICES

Notwithstanding the fact that in many lines of pure food products retail prices have shown a tendency lately to climb higher, the fact remains that in the Rogers' and Nifty Jiffy stores there has been a mark-down—a reduction—on practically all lines of food products. This is particularly true of scores of nationally known advertised products.

And We Have Made These Low Prices Our PERMANENT—Our EVERY-DAY Prices!

Our constant daily increasing patronage shows that people prefer to trade where they know that EVERY ARTICLE they buy EVERY DAY is sold just as low as it is possible to buy it anywhere.

This policy—while an innovation in grocery circles—has created greater confidence in our manner of doing business, and has brought us many new and staunch friends and customers.

DELIVERIES TWICE DAILY

One outstanding reason why our customers are always assured of receiving goods while they are absolutely fresh, is the fact that to each of our 160 Atlanta stores we make two deliveries daily on fruits and vegetables, on our full line of breads and on milk.

On all other groceries, staple and fancy, we make deliveries three times each week to each Atlanta store. This is a guarantee of quick turnover, and even on this line of goods we guarantee everything fresh and fine.

Clean, Attractive Stores

A feature of our stores that is now attracting so many new customers and pleasing so many old ones, is the cleanliness so noticeable in our stores, the attractive displays we are showing, and the clever, courteous attention given patrons by our managers and sales clerks. All this, added to our EVERY-DAY LOW PRICES, is creating greater volume for us each day.

news published herein.

A WAY UP AND OUT!

Every time there comes up in the
general assembly a proposition to
get the state's financial difficulties
straightened out by a tax, whether
net income, gross income, gross
sales, gasoline, or what not, there
is more than a handful of govern-
mental wise-crackers who bounce
up to declare that "the way out" is
to economize in the conduct of the
state's business.

Well and good! Right there is
the time to demand of these plu-
perfect economists that they shall
take up and promptly pass the re-
ported recommendations of the gov-
ernor's commission on the simpli-
fication of the state government!

That plan was worked out by a
body of the ablest business govern-
ment experts in the state, headed
by Ivan Allen.

It is fully endorsed by the gov-
ernor, by the outgoing and incom-
ing state auditors, by other state
house officials, by the solid press
of the state and by hundreds of the
most eminent business men in all
sections of Georgia. The commis-
sion's economy plan, approved by
the proper committees of both
houses, says:

"From our study and investigation
we believe that if all moneys are paid
into the treasury, with no special
funds, with a centralized department
of accounts, a budget control, cen-
tralized purchasing, and a reduction
in the number of employees, there will
be brought about a saving of from
\$500,000 to \$750,000 annually, and
we believe that if all the taxes are
collected through one centralized state
treasury \$1,000,000 or more of taxes
annually which the state is not now
getting."

There is as solid economy con-
crete as was ever laid for a bridge
over which to travel from poverty
to solvency!

Why, then, should men profess-
ing love for the state and devotion
to the welfare of the people, hesi-
tate to adopt it?

The only reason states one in
the eyes from the face of that qua-
lification. It is in the sentence "re-
duction in the number of employees."

Now if the army of tax-eaters are
strong enough to defeat so meri-
torious a measure, God help the
state!

The people generally are awake
to the scorching truth that politics
of the personal profiteering sort is
costing them, as the commission
shows, a tax of at least \$1,500,000
more every year than the govern-
ment should require.

Square-dealing with the tax-rid-
den people demands imperatively
that this commission's plan to re-
duce the mechanism and cost of
state administration shall be adopted,
the actual needs of the simpli-
fied government ascertained, and
such bearable taxes provided for as
will support it with solvency, credit
and efficiency.

That is the supreme duty of this
general assembly and it should dis-
charge it like wise and brave men.

The representative who said that
"Georgia roads are all right as a
whole," was correct if holes are all
right for roads.

The poultry exchange of Florida
is to call its egg pack: "Sunland
Eggs." But aren't they liable to be
crazy with the heat?

A professor of the Pennsylvania
State college has compiled 143

qualities essential for the ideal hus-
band. No wonder there is no such
an animal!

THE COMMON SCHOOLS CRISIS.

Full provision for the support
and operations of the common
schools of the state is one function
of the government that should not
be neglected or abated. The people
of every degree wish their children
to be instructed steadily while they
are of the ages to absorb instruction
in the things essential to intelligent
life equipment.

There are several other govern-
ment functions that can better suf-
fer deficits and depletion than the
common school system. Rather
than have any schools closed, any
terms shortened, any teachers dis-
charged or reduced in their often
delayed wages, there are other de-
partments that can be safely sus-
pended and hundreds of clerks, in-
spectors and other fifth-wheel em-
ployees who can be discharged with-
out any vital or absolutely neces-
sary function of the state being
sacrificed.

Legislators will be well advised
to consider seriously their duty to
keep the common school system in
full play, for when the people realize
that the rights of their child-
ren to a free and competent edu-
cation are being neglected and de-
nied, they will not be charitable
with their servants who may be re-
sponsible. Georgia is far enough
down now in the educational scale.
She must be brought up to hono-
rable parity with the average Ameri-
can state.

THE STATE NEWSPAPERS.

The Georgia Press association
holds its annual meeting in Toccoa
this year, commencing on August
27. A very full attendance of pub-
lishers and editors is promised and
honor trophies will be awarded to
newspapers that have made notable
contributions to the prestige of the
Georgia press during the journalis-
tic year then ending.

The Constitution has always had
sincere interest and pride in the
press of Georgia. It has not for-
gotten how warmly the democratic
editors of the state welcomed its
birth in 1888 and how generously
they supported its life and policies.
For those reasons it has consid-
ered its own fortunes strongly iden-
tified with those of the loyal and
progressive newspapers of the state.

Georgia has much in government
and some state-wide institutions
that manifestly could be most ben-
eficially improved, but the Georgia
press is not conspicuous among
them. On the contrary, much of
the civic and material progress
achieved in the state in recent years
has been due to the intelligence,
enterprise and promissive spirit of
the conductors of the state's news-
papers.

To them the people must look
more expectantly, perhaps, than to
any other of their public servants
for the same leadership in progres-
sivism that the state needs today
more than in half a century past.

ASSURE THE RHODES GIFT.

It was commendable action by
Senator Whaley, of this district, in
getting the resolution to accept
the Rhodes mansion gift to the state
out of committee and to passage
through the senate by a unanimous
vote.

Senator Whaley sensed the li-
ability of the matter to become
wedged in the legislative jam now
approaching and thereby fail of en-
actment, and that would have been
deplorable.

Now that the resolution has been
sent over to the house it should be
taken up promptly and unani-
mously approved and sent to the
governor for his signature.

The Fulton delegation will be ex-
pected to urge the proper proceed-
ing without delay, in order that
the state may acquire for public
use the handsome and valuable
property, with becoming grateful
acknowledgment to the generous
and patriotic donors.

The greatest endurance test:
How much tax will gasoline stand?

No matter how dusty the Georgia
roads the legislators don't propose
to bond them.

Pineapples are not included in the
menu of the 18-day reducing sched-
ule. However, in Chicago, pine-
apples never fail to reduce the popu-
lation.

The Wickersham plan tends to
help the weak and assist the drowsy,
with plenty of room between for
the bootlegger to pass through.

The Tacoma airship traveled 150
feet in its 4,000 mile trip to Tokyo,
which finished it without janniping.

The spirits of St. Louis used to
be in its beer—now it is planes.

Most of Florida's troubles are
produced by those who don't pro-
duce anything else.

Of course we are in favor of an
increase in the tariff on peanuts; in
truth, we prefer to keep out all
foreign nuts.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN.

And Barnum Missed Portugal.

Press agents all over the world have
found a Happy Hunting Grounds to
go to, while they live. Listen to
this bit of hot news sent to Fleet
street journals in London under a
Lisbon date line: "Several Ameri-
can detectives arrived here searching
for Mary Dugan, who is accused of
murdering a prominent broker. It is
believed that Miss Dugan has fled to
Lisbon and is hiding here." The
movie film, "The Trial of Mary Dugan,"
is opening in London Monday,
so the Fleet street paper didn't fall
but Lisbon, as is evident, swallowed
the publicity man's bait hook, line
and sinker. "Maybe," said London
papers, "the next move of the press
agents will be to announce to guide-
less Portugal that the film is a record
of an actual news event."

Students Overwork.

The increasing wave of protest
which has arisen in France against
the excessive degree of work required
of the younger students has led to
a definite action by the Academie de
Medecine. A motion has been passed
setting forth that the candidates for
the baccalaureate degree are over-
worked, and advocating specifically a
narrower curriculum, more hygienic
classrooms and the abolition of night
study to be done at home. It has
been contended for a long time that
the school and university authorities
in France require altogether too much
work from their charges. This is
particularly true of the "bachelors,"
a degree almost as advanced as the
Anglo-Saxon A. B. but which is taken
by French students at the age of about
16. After weeks of intensive "cram-
ming" the candidates are forced to
undergo a series of examinations
which last all day for nearly a week.

The amount of study thus required
is so great that it leaves no time at
all for athletic or social activities.
As a result the French students are
practically always a rather poor phys-
ical specimen in comparison with
British and American boys of his own
age. And it's not only that way in
France. Nearly every country in
western Europe has the same prob-
lem.

Natural Development.

Whatever else may be said of the
soviet regime in Russia, it has been
a stimulant to native literature, and
it has resulted in a flood of books
historical in intent and sometimes in
achievement. M. Vladimir Bogdanov
new book, called "A Panorama of Rus-
sian Literature," shows that he is
familiar with the new literature, and
he has a good background in the
study of the old Russian writers.
His "Panorama" therefore achieves a
proper presentation of the close con-
nection between the new literature
and the old, bolshevik literature,
that is to say, literature as dis-
tinguished from mere propaganda.
A great stimulus, perhaps, a catalyst
was necessary to provide the new
energy. But another stimulant might
have brought about results quite sim-
ilar to those which have appeared un-
der the new regime.

The World and All

BY CHARLES B. DRISCOLL.

ITEMS ABROAD.

Two reforms in city construction
that I have long advocated I have
found already in practice in some
European cities.

Several years ago I wrote in the
newspaper a suggestion that fire
plugs could be made less conspicuous
and less dangerous by placing the
openings flush with the sidewalk or
with the curb, covered by iron plates
fair to be quickly removed by
firemen when making connections.

Fire plugs are the cause of many
injuries. They stand at a dangerous
height, and they are each one lo-
cated, especially on a dark night, until they
are run into, either by an automobile
or by a pedestrian.

In many American cities the widen-
ing of sidewalks has left fire plugs
standing in the walks, three or four
feet from the curb. Persons running
fast cars or buses at night often run
into these obstructions and injure
themselves. Besides, the fire plug is
an ugly thing wherever you find it.

In London and many other Euro-
pean cities the fire plugs are under the
sidewalks, covered by iron grating.
In London such plugs are indicated by
a letter "H" painted in black on a
white background on the sidewalk,
adjoining wall or on a post, if there
chances to be one near. This enables
firemen to locate the plugs easily. The
grating is lifted quickly by means of
a lever, hammer, stick or stone.

In Eastbourne, where the English
towns the letters "F. P." on an iron
plate are posted near the plug. The
plug, F. P., of course, stands for fire
plug. H., in London, means hydrant.

Another obstruction can be removed
from the curb lines by attaching
street lights to the sides of buildings.
This is possible, of course, except
where there is a solid row of buildings
along the street. I have suggested this
in American cities and got myself
laughed at for a middle-aged fellow
always suggesting impractical things.

In the city of Santander, Spain, I
saw it beautifully done. There is a
wide avenue, nicely paved. The ave-
nue is lighted by strong electric light
artificially fastened to the building
fronts by means of ornamental iron
brackets. The brackets extend some
distance out from the wall, and the
lamp is tipped at just the proper an-
gle so that the light is properly dif-
fused over sidewalk and street. The
brackets are so artistic in design and
construction that they add to the beau-
ty of the buildings.

Obstructions at the curb are too
numerous and unsightly in most
cities. If they can be removed alto-
gether the effect is beautiful. Trolley
poles are going, as buses are replacing
trolley cars almost all over the world.
"White way" poles can be removed,
too, in many cities, with resulting
economy and beauty.

WORDS OF WISDOM

To be conscious that you are ig-
norant is a great step to knowledge.—
Benjamin Disraeli.

Live in such a way as when you
come to die, you will wish to have
lived.—C. F. Gellert.

LOOKING AND LISTENING

BY SAM W. SMALL.

Some Pointers on Where You Can Find Wealth That Will Not Fail.

The 94th anniversary of the birth
of the Mt. Gilead Camp meeting is
being now celebrated on Mt. Gilead
camp ground near Ben Hill,
west of East Point, on the
Campbell Hill
road.

It was back in the summer
of 1835 that a few of the de-
vout Methodists of Atlanta and
Georgia, and a few of the de-
vout Methodists of the South, came
to the Mt. Gilead camp meeting
to hold a season of evangelistic
worship.

The venture brought physical and
spiritual blessings to all who joined
in it. These gave impetus to the
annual repetitions so that Mt.
Gilead Camp Meeting grew into one
of the annual institutions of the com-
munity.

Each year on into the War Between
the States witnessed growing attend-
ance and worshipful interest at Mt.
Gilead. Eminent preachers of the
Methodist church, south, came to its
rude pulpit and made the leafy arches
of one of "God's first temples," an
unpolluted grove of heaven-spirited
trees, resound with the vivid truths
and electric power of a gospel free
from skepticism, higher criticisms,
evolutionary gibberish, or compromises
with social liberalism—things that af-
flict us in the present day.

An Old-Time Camp Meeting.
There are very few persons living
now who retain personal memories of
the old-fashioned Georgia camp meet-
ing. They were, perhaps, the most
unusual of all our southern religious
institutions. The pure and deeply-
rooted piety of our fathers and moth-
ers was vocal and substantial, and
when they came together, free from
the cares and chores of home, farm

Another Letter From a Bald-Headed Dad to a Flapper Daughter

By Robert Quillen

My Dear Louise:
Since you were an "only" child, and the chief treasure of a lonely
grandmother, there wasn't much to keep you from having your own
way about things. Chance, parental love and nature conspired to make
you selfish.

The conspiracy didn't work, for I watched you narrowly for signs
of that important feeling and took steps to keep your ego normal.
It was an unpleasant job at times, for I yearned to give you every-
thing you wanted; and when at last I had to convince you that you
weren't entitled to anything at all, I was forced to tell you to appreciate
what you had, and to be content with less than you deserved. I called myself a brute and
lay awake at night wrestling with my conscience.

It made you unselfish, however, and wisdom is justified of her chil-
dren. Blessed are those who expect little.

You aren't selfish now in the matter of possessions or advantages,
but I have noticed some symptoms of thoughtlessness here of late—the
business of sullying your own convenience without much regard for the
convenience of the household—and that lack of thought for others is
selfishness in its worst form.

It isn't a very serious matter—yet, but a small seed becomes a great
tree and I want to tell you what selfishness will do for you if you don't
watch your step.

Selfishness builds a wall around itself. It shuts others out. And eventu-
ally it finds itself alone. If it then complains, the gods will answer:
"Well, all you wanted was yourself. That's what you have. Let's hear no
complaints."

Selfishness leads inevitably to boredom. Do you remember how bored
you were in the mountains the first few summers? That was because you
weren't interested in any of the people or what they did. All travelers in
strange lands get bored that way after a time because the activities of
other people mean nothing to them. They watch games listlessly because
they don't care how anything turns out.

The selfish are like that. Because their only interest is self, they
can't take sides or care how anybody's struggles terminate, and life
seems to them as dreary as a tiresome show in which nothing happens.

The "kick" of life, like the Kingdom of Heaven, is within you. Only
those get a thrill who are unselfish enough to feel a keen interest in the
other fellow's fight.

What is more, and worse, the selfish are soft and easily damaged.
By avoiding all things disagreeable they fail to develop moral fibre, and
become content with less than they deserve. Every trivial pain is multi-
plied by the fact that it is new. They howl about a little thump that
couldn't be noticed by those who play the game boldly and take hard
knocks as they come.

Watch yourself, Honey. When you aren't thoughtful of others, you
are developing a habit that will make your hungry heart ache later on.
(Copyright, 1929, for The Constitution.)

Questions and Answers

YOUR QUESTIONS ANSWERED

You can get an answer to any
answerable question of fact or in-
formation by writing to Frederick
W. Kirby, Question Editor, At-
lanta Constitution's Washington
Bureau, 1322 New York avenue,
Washington, D. C., enclosing 1c
for postage. Kirby will give legal
and legal advice can be given.
No other questions will be made.
All other questions will be made
personal reply. Unanswered requests
cannot be answered. All letters are
confidential. You are cordially in-
vited to make use of this free ser-
vice as often as you please.

Q. What are the postage rates
from the United States to Canada?
A. The same as in the United
States.

Q. What is the earth's orbit?
A. The path around the sun. One
complete revolution of the earth in its
orbit around the sun is equal to one
year's time.

Q. What are satellites?
A. Bodies dependent upon and re-
volving around other bodies. The
moon is a satellite of the earth.

Q. What is economics?
A. The science that treats of mat-
erial resources, or of the production,
preservation, and distribution of
wealth, and of the means and methods
of living well, for the state, the family
and the individual.

Q. Is there a certain day in Aus-
tust when if weeds are cut they
will not grow again?
A. There is no basis of fact for
this superstition.

Q. Which is the most difficult
stringed and wind instruments to
learn to play?
A. The violin is considered the most
difficult stringed instrument and the
trombone the most difficult wind in-
strument.

Q. What is brass?
A. An alloy of copper and zinc.

Q. Where is the Spanish embassy
in the United States located?
A. 2700 Fifteenth street, N. W.,
Washington, D. C.

Q. What is the length of the pe-
riod of gestation in the elephant?
A. From 21 to 22 months.

Q. What is the best score ever
made in golf?
A. The best recorded score for 18
holes is 36, made by George Dunlop,
of England, in a round for the Swiss
open championship in 1913.

Q. What percentage of automo-
biles in the United States are sold
on time payments?
A. Forty-eight and one-tenth per-
cent of the new automobiles in 1928
were sold on time payments.

Why Not? (Ask the U. S. Senators Who Voted It Down)

AW, TELL IT TO THE JUDGE!

Health Talks

BY DR. WILLIAM BRADY.

X-RAY TREATMENT FOR CANCER.

A reader has something of interest
to say about the treatment of cancer:
Dear Dr. Brady:

I noted in your column an inquiry
concerning a hopeless case of cancer.
It meant much to me last year when
I was in bed with cancer of the uterus
to know of just one case that had re-
covered. I had received radium treat-
ment from Dr. . . . but the cancer
continued its inroads until . . .
Dr. . . . is our family doctor
and Dr. . . . was the X-ray opera-
tor who had first sent me to Dr. . . .
in its borderlands. Besides the
Dr. . . . one of our best surgeons,
was called in the hope that he would
operate. The cancer had encroached
on the radium treatment. Besides the
operation and he would not attempt it.

I mention all these details so that
it may be clear just what the con-
dition was. And I saw the labora-
tory report from the . . . hospital
which reported cancer cells found in
the specimen under the microscope.
All of the doctors mentioned were of
the opinion I would never be up again.

Dr. . . . and . . . wanted
me to have deep therapy X-ray, not
that they believed it would cure, but
that it might diminish bleeding and
pain. Dr. . . . did not advise
it because he believed it would give
only temporary relief. However, I
took the deep therapy with the re-
sult that in less than a year I am
apparently cured. The hardened tis-
sues that are left have become nor-
mal. I am everywhere and feel fine.

But the fact that I knew of one
apparent recovery gave me hope,
without which I never would have
made a fight for recovery.

Dr. . . . (who did not advise the
deep therapy X-ray because he be-
lieved it would give only temporary
relief) has changed his views to the
extent of sending a cancer patient to
me for encouragement to follow the
same treatment.

I have nothing to sell or advertise,
but I do wish that hope could be
tended to other sufferers that they
perhaps need not die.

Very sincerely yours,
Mrs. . . .

I shall not divulge the correspon-
dent's identity here or by private let-
ter. She has told all she can tell about
the treatment in her remarkable let-
ter. I am glad to publish it here be-
cause I know all of the physicians she men-
tions are reputable and competent
men, and also that deep X-ray therapy
is available everywhere. Though we
cannot, alas, deduce from one ap-
parent cure a conclusion that deep X-
ray treatment is a cure for cancer, it
seems perfectly credible to me that
such treatment deserves consideration
in many cases of cancer that has de-
veloped to a degree beyond the reach
of surgery.

QUESTIONS AND ANSWERS.

Flax Seed.
Please send me the amount of
flax seed to be used daily as a
substitute for physic. (Mrs. C.
W. C.)

Answer—Anywhere from a small
teaspoonful to several tablespoonsful.

Dancer Is Near Sighted.
My daughter, aged 13 years,
has myopia. She discovered it
only recently and had her fitted
with glasses, on advice of the
school nurse. She is a ballet
dancer and an all-around athlete.
She refuses to wear her glasses,
except in her pocket. Can you
feature a ballet dancer with hor-
n-rimmed spectacles? We are brok-
en-hearted. (Mrs. A. K.)

Answer—First, make sure the
child's eyes are examined properly by
an eye physician. Let the physician
advise whether the constant wear-
ing of glasses now will conserve vision
later on. No one else is competent
to do so.

(Copyright, 1929, for The Constitution.)

SMITH TO PREACH

Miami Minister To Take Dr.
Bricker's Pulpit Sunday.

Dr. Everett S. Smith, of Miami,
will preach the second of a series of
sermons by noted pastors at the
Presbyterian church Sunday.
This series is being offered during
the absence of the pastor, Dr. L. O.
Bricker.

Dr. Smith will speak on "The Par-
able of the Ark." Dr. Dwight S.
Bailey will be associated with Dr.
Smith in conducting the service.

The Orient Through the Eyes Of an Atlanta Newspaperman

BY FRANCIS W. CLARKE, Managing Editor Constitution

Manchuria, Bulwark of Peace

The Constitution was requested by the Carnegie Foundation for
International Peace to select a member of its staff to join representa-
tives of ten other American newspapers to take a trip to Japan and
China for the purpose of studying conditions with a view of bring-
ing about closer relations between these countries and the United States.

Francis W. Clarke, managing editor, was assigned to make the
trip for The Constitution, and today this paper publishes the twenty-
first of a series of articles from Mr. Clarke. His letter, which

South Below U. S. Average, Educationally, Speaker Tells Southern Club Group

Brag Too Much, Work Too Little, North Carolina University President Declares Is Trouble

New York, August 2.—(AP)—Edgar W. Knight, professor of education at the University of North Carolina, and member of the Columbia university summer session faculty, in addressing the annual meeting of Southern Club tonight declared that the south, measured by national standards, is "not yet an educationally advanced section of the United States, notwithstanding the remarkable progress made since 1900."

Not a single southern state yet has gained the rank of an educationally average state, he said, and to attain this recognition the south must do for schools twice as much as it does now.

"We southerners work too little and brag too much," Professor Knight said. "We've been bragging about our southern schools. The fact is our schools rank low when measured by national standards. In part, this is because we southern people have a distaste for sustained efforts at our educational and intellectual tasks; in part, it is because we have become intoxicated with our own prosperity and progress."

Non-Attendance Higher. The speaker said that non-attendance is higher in schools of the southern states; they suffer by comparison with national standards in matters of physical equipment, teacher training and salaries; they are at the bottom of the list in public libraries and there is a lack of schools and illiteracy is rampant.

The south's high school graduates, Professor Knight declared, are less well educated than first year high school students in states with advanced school systems, and that the average southern college freshman exhibits a stage of educational progress which measured by national standards is normal for second year high school students.

Lack of Opportunity. He said there is a lack of opportunities for graduate study in universities of the south.

"The southern states are not strong in the power to attract scholars and to encourage research," Professor Knight continued. "In all the broad region between the Potomac and the Rio Grande there is not a graduate school that, measured by national standards, can take first rank. The two which show up to best advantage are the Universities of North Carolina and Texas."

To overcome these alleged shortcomings, Professor Knight declared the south must first admit that they do exist and work harder in the educational field.

"We must learn that exaggerated claims of progress, so often made by

influential leaders in the southern states, are often interpreted as actual defenses of our educational deficiencies," he said.

OLD PAINTING, ALLEGED TITIAN, FOUND IN CLOSET

Andover, Mass., August 2.—(AP)—An ancient venetian painting, declared to be from the hand of Titian, has been discovered in the closet of an old New England home here by the Rev. Fr. Richard J. Branton, of Philadelphia. It was learned today. The priest who has been spending some time in the vicinity, said the painting was Titian's "Lavinia," another copy of which is in a Berlin museum.

For 50 years the painting had lain soiled, unframed, and forgotten in the closet, where it was laid following the death of an ex-soldier in Garibaldi's army, who brought it with him from Italy when he entered the employ of an old family here, according to local sources.

COLORFUL TEXTILE GIFTS ARE SENT TO MRS. HOOVER

Washington, August 2.—(AP)—Brilliant textiles woven by Indians of Guatemala have been presented to Mrs. Herbert Hoover as a gift from Senora De Chacon, wife of the president of Guatemala.

They were accompanied to the White House by Colonel Miguel Garcia Granados, chief of the Guatemalan air corps, and Lieutenant Carlos Merlen, chief of the mechanical section, who completed a four-hour flight from Guatemala City in 24 1/2 hours' flying time.

The presentation to Mrs. Hoover followed receptions to the fliers by President Hoover and Secretary Stimson, to whom they were introduced by the Guatemalan minister, Dr. Adrian Recinos.

CUBAN OFFICERS EVICTED AFTER SMUGGLING EXPOSE

Havana, August 2.—(AP)—Lieutenants Manuel Larrusua y Panque and Manuel Heres were today dishonorably expelled from the army by a general order sustaining a court-martial decision convicting them of complicity in a \$25,000 opium smuggling plot exposed last June by secret agents. Larrusua was liberated from the military prison, but Heres was held pending trial on a separate charge of disobedience and disrespect of superior officers. The dismissed officers appealed the case to President Machado.

SOUTHERN BOYS HELD ON AUTO THEFT CHARGE IN GOTHAM

New York, August 2.—(AP)—Two southern youths were held for the grand jury in \$1,000 bail each today on charges of grand larceny growing out of the theft of an automobile. They were arrested in Baltimore with an automobile that police said David Paine, of Dallas, Texas, admitted having stolen here. The other youth, Ralph Rivers, of Florida, Ga., said he was hitch-hiking and had been picked up along the road by Paine. Paine corroborated this statement but the magistrate held both youths.

Guatemala Fliers Honored by Forty Government Heads

Washington, August 2.—(AP)—Forty governmental officials, aviators and diplomats gathered at luncheon today to pay honor to Colonel Miguel Garcia Granados and Lieutenant Carlos Merlen, fliers of the monoplane Guatemala, who completed a four-hour flight from Guatemala City to Washington on Wednesday. The luncheon was given by Dr. Adrian Recinos, minister of Guatemala, in the Mayflower hotel.

Among the guests was Francis White, assistant secretary of state; F. T. Hughes, assistant secretary of war for aviation, and Clarence A. Young, assistant secretary of commerce for aeronautics. Latin-American diplomats, representing all the southern republics, were headed by Ambassador Telles, of Mexico.

DELEGATES CHOSEN Pan-American Institute Plans Mexico City Session.

Washington, August 2.—(AP)—President Hoover has approved appointment of Dr. Ray E. Platt, of the American Geographical Society, of New York, and Professor J. Fred Rippy, of Duke University, North Carolina, as American delegates to the first general assembly of the Pan-American Institute of Geography and History, to be held September 16 at Mexico City.

HIGH'S AUGUST FUR SALE

LARGEST AGRICULTURAL UNION UNDERTAKEN

More Than Million Farmers Will Be Represented by New Group.

Baton Rouge, La., August 2.—(AP)—Formation of what is contemplated as the largest and most representative union of agricultural interests ever attempted in the United States was undertaken here today with organization of the national co-operative council at the American Institute of Co-operation.

Eight of the leading co-operatives in the country, representing 100 commodity groups numbering a membership of more than a million farmers, participated in the preliminary work of organization. Southern cotton growers, dairymen, and milk producers from coast to coast, farmers of the Atlantic seaboard, live stock raisers of the middle west, sheepmen of the western states, egg and poultry groups of the far northwest and grain men of the central states were represented on the organization committee.

C. O. Moser, Dallas, Texas, president of the American Institute of Co-operation and head of the American Cotton Growers' Exchange, was named temporary president of the new council, with Charles W. Holman, Washington secretary of the institute and of the National Co-operative Milk Producers' Federation acting secretary.

The object of the council speakers at the organization meeting declared, was to give to the farmer a powerful voice in matters dealing with American agriculture. Headquarters will be established in Washington to give the member organization contact with such other and with the trend of government policies.

It is the purpose of the organizers to gather all of the co-operatives in the country into a unified group at the council table and operate on the principle of unanimous consent.

The council probably will not be incorporated for several weeks, pending conferences with co-operative not represented here today.

The organization board voted to instruct President Hoover to inform the council and to congratulate him upon the type of men selected for the federal farm board. The farm board was assured by the organization of the organization to co-operate.

HEAVY BUSINESS Awaiting Solons

Continued from First Page.

Floor in the first day's debate favored the Cullpepper bill in principle but spoke in support of various amendments offered from the floor.

The bill as drawn by Representative Cullpepper and approved by the ways and means committee without amendment classifies property for ad valorem taxation throughout the state and sets uniform rates of taxation for such property classes.

Under the bill, farm lands would be taxable at the rate of two mills, while other lands either inside or outside the limits of incorporated towns, four mills on the dollar; merchandise, four mills; furniture, five mills; stocks, bonds, and public utility corporations' property, five mills.

Farm Land Rate. Principal amendments to the measure affected sections reducing the farm land rate from the present five mills and an additional section which would require stocks, bonds, mortgages, etc., to bear a stamp of tax receipts before being enforceable in court action.

Among speakers on the bill were Representatives Battle, Hargis, Stiles, Westbrook and Alexander. Mr. Stiles advocated abolition of the ad valorem tax for state purposes, while Mr. Alexander favored the battle amendment to prevent counties and municipalities levying a tax on intangibles or "intangibles."

A concurrent resolution introduced by Representative Stewart, of the committee, requesting congress to enact legislation to aid aged and indigent persons by means of pensions or insurance was tabled for future consideration by the house.

Three minor appropriation bills introduced Friday were thrown out of the hopper under house rules which prohibit introduction of appropriation bills after the first 30 days of a session except by majority vote of the members.

Representative Battle, of Atkinson county, introduced an unannounced tax measure which would provide a 10 per cent levy on public amusement admissions. The bill would affect college athletic contests and any amusement where admission charges are more than 25 cents.

Passage of the Hargis bill in the senate Friday marked the third time that the bill has been up for discussion, it

having been tabled on two other occasions during the week. The measure has the general effect of eliminating the necessity of producing authors of business records as witnesses in court.

George W. Goode, of the thirty-first, was the author of two bills before the senate Friday. One of these, creating a department of law, was postponed until next Tuesday, while the other, authorizing ordinaries in counties having no board of commissioners to hire clerical assistants, was passed.

Senator Nichols' "bull bill," designed to prevent ranging of bulls more than four months old, was another measure passed by the upper house. A measure by Senator Pinner, of the fifth, prescribing duties and powers of county commissioners, was deferred for further consideration until Monday.

The bill would tend to make powers of the commissioners uniform throughout the state.

Faces Big Task. Sessions of both houses will start at 11 o'clock Monday, with the lower body turning immediately to consideration of the classification tax. The senate's calendar will be filled by the rules committee early Monday morning.

Bills Passed by Senate. The following bills were passed in the senate Friday: By Representative Walker, of Ben Hill—To amend the charter of the city of Dalton to authorize the city to purchase real estate so as to authorize county authorities to select official organs.

By Representative Gallist, of Campbell—To amend an act incorporating the city of Fairburn.

By Representative Nelson, of Cook—To amend the charter of the city of Dalton to authorize the city of Dalton to close the school playground.

By Senator Nichols, of the Eighth—Providing for the admissibility in evidence of permanent business records in lieu of original documents.

By Senator Rawls, of the Eighth—Defining the offense of obtaining money by false pretenses and corporations to enforce in the business of selling burial benefits.

By Senator Nichols, of the Third—Regulating the grazing of cattle on the open range of the state.

State Bills Passed by House. The following bills were passed in the house Friday: By the Bibb Delegation—To authorize the county commissioners of certain counties to name and designate official depositories.

By the Fulton Delegation—To authorize the county commissioners of Fulton county to establish a system of waterworks.

By the Lowndes Delegation—To amend an act relating to the time of meeting of the commissioners of roads and revenues in Lowndes county.

By the Richmond Delegation—To authorize the commissioners of certain counties to adopt testing machines for experimental use.

By Representative Strickland, of Brantley—To amend the charter of the city of Brantley to consolidate the office of tax collector and tax collector in Brantley county.

By Representative Barker, of Heard—To amend the charter of the city of Heard to create the office of commissioner of roads and revenues in Heard county.

By the Muscogee Delegation—To empower the city of Columbus to pass zoning and planning laws.

By the Muscogee Delegation—To amend the charter of the city of Columbus to create the office of commissioner of roads and revenues in Columbus county.

By Representative Bland, of Sevier—To amend the charter of the city of Lumpkin to create the office of commissioner of roads and revenues in Lumpkin county.

By Senator Lanford, of the Fifteenth—To amend the charter of the city of Wilkes to create the office of commissioner of roads and revenues in Wilkes county.

SENATE ACCEPTS RHODES HOME GIFT Continued from First Page.

cepted, and that the deed thereto be received and be recorded in the office of the clerk of the superior court of Fulton county.

The bill as it further resolved, that the general assembly of the state of Georgia hereby gives expression of its high appreciation of the generosity of the said I. Rhodes and Mrs. Louana Rhodes Bricker and of the patriotic and public-spirited motives actuating them in making said gift.

It further resolved, that the archives and history of the state of Georgia, now located in the state capital, shall be removed to, and located in, the building so conveyed, which shall be the permanent home of said department and set aside to the exclusive use of said department, which said department shall continue therein and shall be otherwise supported and operated with all respects as heretofore conducted and supported in the capitol building of this state.

THREE ARE FREED OF DEATH CHARGES IN BOAT CRASH

Spirit Lake, Iowa, August 2.—(AP)—Charges of second degree murder against three men growing out of the collision between the passenger boat Miss Thriller and Zipper Sunday night, were dismissed today. Nine lives were lost in the boat crash.

BRITISH STRIKERS GAIN NEW MEMBERS

First Week of Cotton Industry Stoppage Ends More Seriously Than Start.

Manchester, England, August 2.—(AP)—The first week of the cotton industry stoppage will end tomorrow with indications that additional numbers will be added to the idle rather than an early peace obtained.

A further 13,000 will be added to the unemployed tomorrow when operatives in the cotton waste, spinners and other sections remain away rather than accept the wage reductions called for in notices effective at that time.

The only sign of peace came from the indirect move of the Masters' Association today in appointing a committee to endeavor to obtain reduction in finishing charges, that is from the bleaching, dyeing, printing and packing branches.

The masters contend that their attempted reduction of wages was only part of the policy for reducing costs to the world competitive level.

The public has felt no great inconvenience from the stoppage as yet and hence there has been no actual pressure on the government to force the natural desire of the labor government to get such a big dispute settled. The labor ministry has no power to act except by persuasion or by setting up a committee of inquiry which would only be able to recommend possible terms of settlement.

RUSSIAN ULTIMATUM REJECTED BY CHINA

Continued from First Page.

The Chinese Eastern railway in Manchuria. He did not indicate in making this statement whether he had already received the Russian ultimatum of today announcing three drastic conditions in the matter.

These called for liberation of soviet workers and civil service men held in Manchuria, appointment by the soviet government of both manager and assistant manager of the railroad, and immediate calling of a conference to negotiate questions arising out of the dispute.

Nationalist leaders, however, said flatly today that "the railway hither to has been used by the soviet as a means for spreading communism in China. For the maintenance of peace and order in its territory, China cannot allow soviet control of the administration of the railway."

This appeared in the semi-official notice that China would not meet the soviet demands.

The foreign minister in explaining the present status of the dispute said that informal conferences now were taking place between representatives of China and Russia at Manchuli, on the Manchurian frontier.

He said these meetings are informal, "and in no wise indicate that the question will be settled by direct negotiation."

"While the nationalist government is ready to negotiate on the Chinese Eastern railway problems with the soviet union," he said, "the government will accept no conditions for opening such negotiations."

Government officials have repeatedly said that Chinese insistence on the administration of the railway did not amount to confiscation but that Russia would be permitted to retain all the property in the line.

It was believed, however, that the Chinese government will insist that the railway administration be entirely in the hands of Chinese engineers under a mixed directorate as before.

EDISON EXAM HARD BUT FAIR

Continued from First Page.

tion and looked somewhat embarrassed when the other 48 youths lifted him to their shoulders and cheered lustily.

Stiff Competition. There was stiff competition for first honors in the test. The judges announced, and four additional scholarships of tuition only were awarded because the contest was so close.

Hernard Sturges, of Butler, Ind.; Charles H. Brunissen, West Redding, Conn.; Ivan A. Getting, Pittsburgh, Pa.; and James Seth, Santa Fe, N. M., all received the extra scholarships.

What Huston answered to each of the long list of questions in the inventor's "genius test" may never be known, but the judges allotted the prize to the boy who answered the list of questions. He wrote an answer for every one. After the announcement ceremony Mr. Edison shook hands with the victor and patted him on the back. The boys were taken on the municipal tug for a tour around Manhattan Island.

The 49 boy contestants were lined up on the lawn of the Edison home

in Llewellyn Park as the announcement was made by Dr. S. W. Stratton, president of the Massachusetts Institute of Technology, who was chairman of the committee of judges.

Boys are Praised. Dr. Stratton was in his praise of the boys, who yesterday participated in a grueling examination on subjects ranging from morals and ethics to science.

It was a tired looking committee that faced the bright and fresh looking boys on the lawn. Dr. Stratton said they pored over the examination papers until a clock this morning, and the high rating attained by each of the contestants made the job of picking the winner a hard one.

It was recalled that Huston, 16 years old, and the son of the bishop of the Episcopal diocese of Seattle, was the last one to finish the test yesterday, a rousing cheer greeted the winner of the Edison scholarship.

Huston's average in the test was 92. The other four averaged between 88 and 92.

HUSTON'S HOME FOLKS REJOICE. Seattle, Wash., August 2.—(AP)—Wilbur B. Huston, 16-year-old student, who was selected today as the winner of the Edison scholarship, was described by his former teacher as a "modest, retiring lad who has to be pushed into contests."

He is the son of Bishop and Mrs. A. S. Huston, of the Episcopal diocese of Olympia, Wash. The parents were overjoyed at their son's selection.

Dr. Charles King Bliss, principal of the Lakeside School for Boys, where young Huston attended, described him as always being more interested in science than in school work.

"Young Huston's lack of interest in languages was a great disappointment to his father," Dr. Bliss said. "It was a disappointment to find himself, Wilbur, receiving fairly good grades in Latin, foreign languages and literature, but his heart was not in these subjects."

"His mental tests here showed unusual capacity and development. He is a modest, retiring lad who has to be pushed into contests, a lad of beautiful character."

The boy's mother said she and her husband were the happiest parents in the state.

Nationalist leaders, however, said flatly today that "the railway hither to has been used by the soviet as a means for spreading communism in China. For the maintenance of peace and order in its territory, China cannot allow soviet control of the administration of the railway."

This appeared in the semi-official notice that China would not meet the soviet demands.

It was recalled that Huston, 16 years old, and the son of the bishop of the Episcopal diocese of Seattle, was the last one to finish the test yesterday, a rousing cheer greeted the winner of the Edison scholarship.

Huston's average in the test was 92. The other four averaged between 88 and 92.

HUSTON'S HOME FOLKS REJOICE. Seattle, Wash., August 2.—(AP)—Wilbur B. Huston, 16-year-old student, who was selected today as the winner of the Edison scholarship, was described by his former teacher as a "modest, retiring lad who has to be pushed into contests."

He is the son of Bishop and Mrs. A. S. Huston, of the Episcopal diocese of Olympia, Wash. The parents were overjoyed at their son's selection.

Dr. Charles King Bliss, principal of the Lakeside School for Boys, where young Huston attended, described him as always being more interested in science than in school work.

"Young Huston's lack of interest in languages was a great disappointment to his father," Dr. Bliss said. "It was a disappointment to find himself, Wilbur, receiving fairly good grades in Latin, foreign languages and literature, but his heart was not in these subjects."

"His mental tests here showed unusual capacity and development. He is a modest, retiring lad who has to be pushed into contests, a lad of beautiful character."

The boy's mother said she and her husband were the happiest parents in the state.

Nationalist leaders, however, said flatly today that "the railway hither to has been used by the soviet as a means for spreading communism in China. For the maintenance of peace and order in its territory, China cannot allow soviet control of the administration of the railway."

This appeared in the semi-official notice that China would not meet the soviet demands.

The foreign minister in explaining the present status of the dispute said that informal conferences now were taking place between representatives of China and Russia at Manchuli, on the Manchurian frontier.

He said these meetings are informal, "and in no wise indicate that the question will be settled by direct negotiation."

"While the nationalist government is ready to negotiate on the Chinese Eastern railway problems with the soviet union," he said, "the government will accept no conditions for opening such negotiations."

Diversification in Georgia Is Urged as Best Solution Of State's Farm Problem

Georgia Association Hears
Report by President
Hastings and Indorses
200th Anniversary Ob-
servance.

Reading of the annual report of President H. G. Hastings, in which he urged diversification as the best solution for Georgia's farm problem and the adoption of resolutions endorsing the idea of a state-wide celebration of the two hundredth anniversary of the founding of the state, were outstanding events at the ninth annual meeting of the Georgia Association here Friday which was attended by leading citizens from all parts of the state.

Other resolutions adopted endorsed the bill introduced in the legislature which would authorize appropriation of funds for community and county advertising; endorsed the plan of an Atlantic-Georgia canal to give Georgia an extensive system of inland waterways; gave approval to the plan of setting aside the Okefenokee swamp as a sanctuary for wild life, and praised the Southeast Georgia Co-operative Association for its work in organizing 14 counties and urged similar systems for other parts of the state. Two special resolutions were unanimously passed, one thanking The Constitution for its assistance in making pictures of the Okefenokee swamp, and a second expressing appreciation to the G. and F. and the A. B. and C. railroads for their co-operation.

Speakers at the all-day meeting included Willis A. Sutton, superintendent of the Atlanta schools, who advocated the celebration in 1933 of the state's two hundredth birthday; H. M. Atkinson, chairman of the board of the Georgia Power Company, who expressed confidence in the future of the state; Charles Barrett, former president of the Farmers' Union, who urged "constant leadership" as the farmer's greatest need; Dr. M. J. Brittain, president of Georgia Tech.; C. H. Bishop, of the Foremost Dairy Products Company; W. E. French, of the Georgia and Florida railroad; V. L. Collier, of the A. B. & C. railroad; Mrs. S. C. Townsend, secretary of the St. Mary's Chamber of Commerce; R. E. Benedict, of Brunswick; R. C. Shoup and W. C. Stokes. Mr. Benedict and Henderson Hallman were named on the committee to study the question of inland waterways with particular reference to the proposed new canal, while Dr. Brittain and Mr. Sutton were placed on the anniversary celebration committee and empowered to start a statewide movement of preparation at once.

Unification of the bodies. President Hastings was empowered to name a committee which shall undertake to set up the machinery for a reorganization of management and personnel with a view to unifying civic bodies in a movement to cure the state's agricultural ills. Suggestions that a new program of activities be drafted was made by P. H. Abbott, secretary of the association, and brought before the meeting in the form of a resolution which was unanimously adopted.

The whole tone of the gathering was one of confidence and optimism for the future of the state and speaker after speaker praised the work of the association for its great work in carrying the message of better farming to the agricultural districts of the state.

NEW ATLANTA ART DIRECTOR IS HERE TO ASSUME DUTIES

Accompanied by his wife and young daughter, Lewis Palmer Skidmore has arrived in Atlanta to take up the duties of director of the Atlanta Art Association and the High Museum of Art. Mr. Skidmore has been on the staff of the Pratt institute in Brooklyn, N. Y., for the past 18 years. A graduate of Yale, he has studied painting in America and has spent five years in Paris. At the Pratt institute he was a teacher in art and anatomy.

About 75 pupils were enrolled in the Atlanta Art Association's school during the past year and an even larger number is expected when the next term begins. The association has just issued its first catalog describing the various courses offered at the museum, including a general training course, and various specialized subjects. Mr. Skidmore, as director, will have a staff of several assistants.

AGED METAL WORKER IS KILLED IN PLUNGE

Edgar J. Kuhlman, 59-year-old sheet metal worker, of 57 Ormond street, was fatally injured Friday morning when he fell about 15 feet to the floor of the dining room at the Piedmont hotel, where he was employed in the remodeling work now in progress.

His plunge from the suspension ceiling on which he was at work was not witnessed by fellow workers. His helper, R. H. Dunn, was working near by, heard Kuhlman fall and turned to see him just after he had struck the floor.

An ambulance was summoned at once and he was taken to a local hospital where he died shortly after noon without regaining consciousness. Death was caused by a severe skull fracture inflicted when his head struck an iron pipe on the floor.

He is survived by his widow; two daughters, Mrs. L. A. Kest and Miss Rosemary Kuhlman; a brother, W. L. Kuhlman, and a sister, Mrs. Orline Inman, of Waycross. The body is at the chapel of the Sam R. Greenberg Company and funeral arrangements will be announced later.

Kuhlman is the second worker to be killed at the hotel since the remodeling work has been in progress. W. P. Reid was instantly killed on March 16 when he fell nine stories down an elevator shaft.

BISHOP CANDLER TO OCCUPY PULPIT AT SANDY SPRINGS

Bishop Warren A. Candler will head a number of well-known Methodist ministers who will appear on the program of a camp meeting revival to be conducted at Sandy Springs from August 9 through August 21. It was announced Friday. Included among the others who will give sermons are Dr. W. A. Shelton, Dr. Fred T. Barnett, the Rev. M. M. Maxwell and Rev. J. W. Segars.

The first week of the meetings will be devoted principally to young people's revival meeting with the Epworth leagues from various Methodist churches sponsoring the meetings each day.

Ice Cream Delivery Of Nunnally Company Features "Dry-Ice"

Use of "dry-ice" as a modern method of packing ice cream for delivery is being employed for the first time in Atlanta by the Nunnally company. "Dry-ice" is a carbonic acid gas (the gas used in carbonated water) frozen solid at a temperature of 109.3 degrees below zero—141 degrees below the freezing point of water. In an ordinary room, a block of this ice uncovered on a table will last about 30 hours. It has the appearance of a block of white marble or chalk, and as it takes on heat, it changes directly from a solid to a gaseous state. There is no liquid state such as when ice melts leaving a residue of water. "Dry-ice" leaves absolutely no trace of its appearance.

Nunnally Company officials state that "dry-ice" will keep firm and smooth for six hours. This innovation will be of widespread interest to Atlanta hostesses and housewives as they can serve ice cream at home at any time of the day with the elimination of all worry as to its keeping in perfect condition. Motorcycles will be employed for delivery of ice cream packed in "dry-ice" and the service is obtainable at any Nunnally store.

The window display at Nunnally's showing "dry-ice" and the method of using it is creating wide interest.

Army Services. Evangelistic services in the Salvation Army industrial home here will be conducted Sunday by Ensign Gordon G. McIlvaine, who was announced Saturday by Captain Hugo Bloomberg, social service officer in charge. The services are part of the religious program which is the basis for the Army's work in rehabilitating men who are "down but not out" and ask for its help in regaining self dependence.

A. M. E. Conference. The Atlanta conference branch of the W. H. and F. M. society of the A. M. E. church is holding a two-day meeting at the Mount Carmel A. M. E. church. The Rev. J. S. McKellar is pastor of the church and N. R. Chambliss, president of the society, is presiding at the sessions.

NEW HOUSE BILLS

The following bills were introduced in the house Friday and referred to the committees designated:

By Nottingham, of Hubbard—To prohibit the use of fictitious letterheads and letters, imitation legal documents or court papers. General Judiciary No. 2.

By Phillips, of Telfair—To amend an act establishing the South Georgia Agricultural and Mechanical college, so as to change the name of that institution to the Georgia State College of Men. University of Georgia and its branches.

By Thrash, of Coffee—To provide that ornamental nursery planting shall give rise to a special lien upon the real estate on which such planting is done. General Judiciary No. 1.

By Hildebrand, of Walker, and Others—To amend the civil code in so far as the same deals with contracts against public property. General Judiciary No. 1.

By Stewart, of Atkinson—To levy a tax of 10 per cent upon all paid admissions to places of amusement. Ways and means.

By Johnson, of Seminole—To regulate the assignment, sale, pledge or mortgage of wages and salaries. General Judiciary No. 2.

By Griffin, of Decatur, and Others—To provide for a state printing commission. Public printing.

By Phillips, of Telfair—To amend an act creating a board of commissioners of roads and revenues for Telfair county. County and county matters.

By Fulton, of DeKalb—To grant certain counties the right to put into operation zoning regulations. County and county matters.

By the Meriwether Delegation—To prescribe that the jury commissioners in certain counties shall receive five dollars instead of two dollars for every day's service in reviewing the jury list. County and county matters.

By Hildebrand, of Meriwether—To provide for nomination in primaries of members of the general assembly in certain counties. Privileges and elections.

By Hildebrand, of Carroll, and Others—To empower the board of health to distribute diphtheria anti-toxin free to the citizens of the state. Hygiene and sanitation.

By Dubose, of Clarke—To prescribe the manner in which liens may be created on property of the University of Georgia and its branches.

By Lewis, of Hancock—Setting house Bill 191 as a special order. Rules.

NEW SENATE BILLS

The following bill was introduced in the senate Friday and referred to the committee designated:

By Cook, of the 45th—To amend an act creating a board of commissioners of roads and revenues for Telfair county. County and county matters.

WATKINS ENTERS RACE FOR CONGRESS PLACE

At Least Three Women Also Will Be Candidates to Succeed Steele.

Entry of Homer Watkins, Atlanta lawyer into the race for congress from the fifth district to succeed the late Congressman Leslie J. Steele, and the probability that there will be at least three women candidates in the field for this post were the only new developments Friday in the congressional situation.

Mr. Watkins announced formally Friday that he will make the race in the democratic primary for the seat in congress. He said he would make his opening announcement in a few days and said he was making known his intention of running at this time so his friends would know he will make the fight. He said he would run as "an old line democrat."

Mrs. George Brown, of Atlanta, is an avowed candidate. Mrs. Norman Sharp, prominent clubwoman, is seriously considering the question of whether or not she will enter the race, while Miss Bessie Kempton, Fulton county representative in the legislature, probably will enter the battle. Next developments in the situation will come at the meeting of the fifth district congressional committee which will be held Monday afternoon at 3 o'clock in the courtroom of Judge Jesse N. Wood in the Fulton county courthouse.

William Schley Howard, chairman of the committee, is spending about a week at his country home in Rabun county but he will be present Monday to preside at the session. John A. McCall, Atlanta lawyer, with offices in the Peters building, who was announced as a tentative candidate for congress early in the week, issued a statement Friday declaring he would not make the race. He thanked friends in the district for offers of support but said his son is seriously ill at the Georgia Baptist hospital and that for this reason he could not run for congress at this time.

ACTORS' CLOSED SHOP PLANS TO BE STUDIED

Los Angeles, August 2.—(P)—The Association of Motion Picture Producers last night agreed, at the request of six prominent screen players, to confer with a committee of the Actors' Equity Association on the latter organization's demands for a closed shop in the Hollywood studios.

The decision of the producers was reached after six weeks of apparent deadlock, during which time heads of the industry had steadfastly refused to meet the demands of the actors' association.

Suspension of more than 15 actors from membership in equity and a \$1,000,000 damage suit against Warner Brothers, Inc., for making a contract with Tully Marshall, a prominent screen actor, allegedly in violation of his agreement with equity, were outgrowths of the industry dispute.

A letter, signed by Conrad Nagel, Lois Wilson, Edmund Lowe, Noah Berry, Louise Dresser and Ralph Forbes, asking the producers to meet the demands of the actors' association, was received by the producers last night. The letter stated that the actors did not agree to "all the particulars of the demands made by the equity, they felt that for the best interests of all actors of the motion picture industry such a meeting should take place."

Steamer Hits Rocks; Cargo of Sugar Badly Damaged

Key West, August 2.—(P)—Steamers were busy today unloading 40,000 sacks of sugar from the hold of the steamer Levenbridge which went on the rocks of Bahama channel Monday while bound for London out of Havana. The vessel stove a large hole and was pulled off by a wrecking tug. Half the sugar cargo is said to be damaged by salt water.

PLAYGROUND HEAD DROWNS IN PARK LAKE

Memphis, Tenn., August 2.—(P)—Lee Pesca, 10, playground director at a city park, was believed to have drowned today while swimming with a group of boys in Hatchie Chute, a branch of the Mississippi river.

Pesca, a student at the University of Tennessee at Knoxville, had been acting as playground director during the summer. He had taken several boys to the chute this morning and was reported to have gone down suddenly while swimming.

Pellagra Relieved
Why suffer from PELLAGRA when you can get relief? Free proof to you. All sufferers should write today for 50-page book describing signs and symptoms. Send no money. Just your name and address. American Compounding Co., Box 2033, Jasper, Ala.—(Adv.)

Co-Ed Slayer's Wife

This is the first photo taken of Mrs. James H. Snook since her husband, former professor at Ohio State university, confessed to the murder of his co-ed sweetheart, Theora Hix, at Columbus.

WOMAN IS ARRESTED IN SWINDLING SCHEME

Washington, August 2.—(P)—Accused of operating a swindling scheme which included sending a number of young women to Europe on "free trips" that left them stranded there, Miss Elzina Howells, aged 48, is being held by Washington police on a technical charge of investigation.

Warrants for her arrest, police relate, were sworn out by two nurses, Misses Lillian Gerard and Irene Riggs, who charged that she had induced them to turn over their savings of \$8,000 to her and then had arranged a "free excursion" for them to Europe.

They left New York July 4 aboard the De Grasse with an assurance that their passage had been paid, the police account continues, but a radio message overtook the ship in mid-ocean, saying the check for their accommodations had been rejected by the bank on which it was drawn, and they had to obtain assistance in France before they could return.

They were only two of six young women similarly victimized, the police allege, estimating the total amounts involved around \$20,000.

HOLDUP MEN ROB BANK MESSENGER OF \$7,500 PAY ROLL

New York, August 2.—(P)—Holdup men today robbed John J. O'Connell, 28, a bank messenger, of three payrolls totaling \$7,500 and escaped in an automobile. O'Connell, armed but afoul, was taking the money from the Manufacturers' Trust Company in Fifth avenue, to three concerns when an automobile drew up to the sidewalk near Thirty-seventh street and First avenue. The men jumped to the street and at the point of revolvers took the money and O'Connell's gun, ordering the messenger to walk on and not turn around while they drove off in another direction.

ACTOR CONVICTED IN MACKAYE CASE IS GIVEN PAROLE

San Quentin, Cal., August 2.—(P)—Paul Kelly, film actor sentenced to San Quentin prison for killing Ray Raymond, actor, in a fist fight over Dorothy Mackaye, an actress, was released on parole today. Kelly was sentenced to five years after he was convicted of manslaughter and served two years and a month. Dorothy Mackaye served ten months for her part in the case. She was convicted of conspiring to withhold information concerning her husband's death. Kelly won parole for "excellent behavior." He said he had obtained a clerk's position in New York.

SMOOT OUTLINES PLAN FOR SUGAR TARIFF

Utah Senator Advocates Sliding Scale With President as Arbitrator.

Washington, August 2.—(P)—A sliding scale sugar tariff with a maximum duty of 3 cents a pound and a minimum of one cent was offered today by Chairman Smoot of the senate finance committee, as a substitute for the house sugar tariff rate of 2 cents a pound.

The Utah senator, who is an administration spokesman, said he believed his proposal would stabilize the New York wholesale price of sugar at 6 cents a pound. When that price prevails a tariff rate of 2.20 cents a pound, the same as in existing law, would be applied under the sliding scale.

The Smoot schedule would apply the 3-cent tariff whenever the price of sugar at New York drops to 5.20 cents or below. As the price increases the tariff would decrease and the minimum rate of 1 cent would apply whenever sugar reached 7.20 cents or more.

Regarded as Compromise.
The sliding scale substitute was regarded as a compromise between the present sugar tariff and the increase voted by the house. While it has not been shown to President Hoover by Senator Smoot, the senator believes the administration to be in sympathy with his proposition. Mr. Hoover declared recently that he was interested in a sugar tariff which would protect both the producer and the consumer.

The sliding scale allows Cuba the regular 20 per cent preferential now enjoyed by that island. Thus, at the present price of sugar the duty on Cuban importation would be 1.60 cents a pound compared with 1.70 under existing law, and 2.40 proposed in the house bill.

"No one can complain of 6-cent sugar," declared Senator Smoot. "The sugar producers in 1928 were reported to be against the sliding scale but it will guarantee at least a 3 per cent return on their investment. And the sliding scale will operate so that if ever there is a runaway market it cannot be blamed on the tariff."

Even before the sliding scale substitute was made public today there were reports of widespread opposition to it by the sugar producers of the United States and south who are advocates of a 3 cents a pound tariff. The senate finance committee will hold public hearings on the sliding scale next Wednesday.

Comment Withheld.
Other members of the committee were slow to comment on the proposed Smoot schedule. When the study that the chairman was confident it would win committee favor. He apparently is counting on the support of President Hoover.

The sugar schedule is regarded as one of the most controversial in the house tariff measure. Senator Smoot is one of the strongest advocates of the high sugar tariff as protection for the beet sugar producers of the west and the middle west. The sliding scale is fixed on the basis of the average New York wholesale price of refined sugar over a three months' basis. The duty provided by the sliding scale is applied to 96 per cent raw sugar.

The following table shows the working of the scale: (The New York price is that of refined sugar, while the effective duty is on raw sugar.)

New York Price	Effective Duty	Effective Price

On this scale Cuban sugar would receive the 20 per cent preferential. Thus, the present rate of \$1.76 on Cuban sugar would apply when the New York average price was \$6 a hundredweight.

Work Behind Closed Doors.
Republicans of the finance committee continued their work of rewriting the house tariff bill behind closed doors today, resuming consideration of the agricultural schedule.

Senator Moses, a Republican, New Hampshire, called on the committee upon his return to the city and protested against any downward revision of industrial schedules if important increases are to be given to the agricultural rates.

"There is a growing feeling of resentment through the east," the New Hampshire senator told the committee, "over what is understood to be the committee's action—boosting the duties on the things we have to buy and taking the duty off of imported things which we must make and sell in order to buy things to eat." The republicans offered their colleague little solace. Senator Moses said they told him nothing.

8 PERSONS HURT WHEN BUS HITS EMPTY BOX CAR

Ocala, Fla., August 2.—(P)—Eight persons were injured early today when a northbound bus of the Blue Bus Line crashed into a string of empty box cars on a spur of the Atlantic Coast Line railroad at Zuber, six miles north here. Seven of the injured were brought to a hospital here.

Jack Batchelder, of Jacksonville, driver of the bus, was said by passengers to have been running on the left side of the road, and did not see the moving freight cars. Unable to stop, he swung the bus to the right, sideswiping and derailling one of the freight cars. The front wheel of the bus was pinned beneath the freight car and it was necessary to send to Jacksonville for a wrecker to remove the bus from beneath it.

THREE GRANTED NEW TRIAL; TWICE SENTENCED TO DIE

Tallahassee, Fla., August 2.—(P)—Twice sentenced to die in the electric chair for the alleged ax murder of Mrs. Mary McMillan, of Jacksonville, in 1926, William Treadwell Stevens and Howard Saffer have been granted a new lease on life by the state supreme court, which late today granted them a new trial.

Edison Scholar Candidates

Forty-nine boys from each of the states and the District of Columbia who gathered at East Orange, N. J., for the Thomas A. Edison scholarship tests. They are shown on the roof of their hotel.

Merritt's Victim Willing For Exercise of Clemency

"AGREEABLE TO LIFE TERM," SHE SAYS

When the case of Alvin E. Merritt, condemned to die on August 9 for criminal assault upon a young married woman, goes to the prison commission next week for a clemency hearing it is probable that a statement from his victim will figure prominently in the fight to have his sentence changed from death in the electric chair to life imprisonment.

This was learned Friday when Mrs. Katie Lee Reeves, a social worker who has become interested in Merritt's case, brought to The Constitution office a statement from the victim in which she says she would be agreeable to having the death sentence commuted to life imprisonment.

Mrs. Reeves became interested in Merritt's case some time ago, and since has been active in his behalf, although she has been working independently of Merritt's counsel, H. A. Allen, and has received no remuneration for her work.

THREE IMPORTANT WEDDINGS SCHEDULED FOR TODAY

Mid-Summer Ceremonies Feature Week-End Calendar

A trio of important weddings center the interest of society today in which two of the ceremonies take place at noon. Miss Lillian Dunham Ashley becomes the bride of Charles Frank Whitner in North Avenue Presbyterian church, while Miss Virginia Surtees weds Dr. George Adams at Washington seminary. Dr. Marion Hull, Dr. De Los Hill, Whitner Howard and B. C. Milner will act as ushers at the Ashley-Whitner wedding, and Mrs. Benjamin Milner will be matron of honor. Little Miss Elaine Sims Hurt, daughter of Mr. and Mrs. Edmund Hurt, will be flower girl. John Whitner will be best man for his brother, and the fair bride-elect will be given in marriage by her cousin, John Ashley Jones. Immediately after the ceremony Mr. Whitner and his bride will motor to North Carolina on their wedding journey, and upon their return to Atlanta will take possession of their apartment in the Pallas, on Peachtree road.

Surtees-Adams.
The dignity of the colonial period after which Washington seminary is patterned will admit of the Surtees-Adams marriage being solemnized in the alcove at the end of the long hallway, with palms, ferns, white by-

drangeas forming the background. Two maids of honor, Misses Emily Mathews and Mary Wyatt Scott, will attend the bride-elect whose aunt, Miss Abby Surtees, will give her in marriage. A program of music will

be rendered by Misses Marguerite Cooper and Eda Bartholomew.

Wheeler-Boylston.
The wedding of Miss Eunice Wheeler and A. D. Boylston, Jr., will be solemnized this evening at 8 o'clock in the intermediate department of the Tabernacle Baptist church. Rev. L. Wilkie Collins, pastor of the Wesley Memorial Baptist church, will perform the ceremony. Miss Wilberth Mills will act as maid of honor and Miss Hester Boylston, sister of the groom-elect, will be bridesmaid. R. J. Tomson, brother of the groom-elect, will act as best man, and R. L. Alexander will be groomsman. Little Annie Mae Slider will be flower girl. Four members of the Althean class at the Baptist tabernacle, of which Miss Wheeler is teacher, will act as ushers including Misses Mabel Duncan, Martha King, Willie Mae Ashworth and Lois Norris.

**Charles Harwell
To Sing Sunday.**
At the meeting of the Capitol Avenue Baptist Business Woman's Circle

Miss Ballard Is Honored.

Miss Martha Dean Mathers entertained yesterday afternoon at a swimming party at the Brookhaven Country Club, in honor of Miss Sarah Ballard, the guest of Miss Threasa Hanger. The hostess was assisted by her mother, Mrs. William L. Mathers. The guests included Misses Suzanne Knox, Barbara Ransom, Charlotte McCrea, Susan Jones, Margaret Huffman, Peggy Poindexter, Threasa Hanger, Sarah Tallard and Genie Davis.

Sunday evening, August 4, at 8:30 o'clock Charles Harwell, the 6-year-old son of Mr. and Mrs. G. A. Harwell, who has won great fame as a youthful singer in Atlanta, will be one of the interesting numbers on the program. There will also be other special music. Dr. J. W. Beagle, of the Baptist Home Mission Board, will tell of his work among the Indians. Business women of other churches who are interested in this work are cordially invited to attend.

Miss Wheeler And Mr. Boylston Are Entertained

Mr. and Mrs. W. C. Williams entertained last evening at a buffet supper at their home on Peachtree road, the occasion complimenting Miss Eunice Wheeler and A. D. Boylston, whose marriage will be an interesting social event of this evening, taking place at 8 o'clock, at the Tabernacle Baptist church. The lace covered table was graced by a silver basket holding garden flowers, and silver candlesticks held crimson tapers.

Mrs. Williams was gowned in green georgette crepe, and was assisted in entertaining by Mrs. J. T. Perkins. Miss Wheeler wore a gown of blue satin back crepe, and a corsage bouquet of pink roses and valley lilies. The guests included Miss Annie Mae Slider, J. E. Slider, Miss Wilberth Mills, Fay Newborn, Mr. and Mrs. J. T. Perkins, Mr. and Mrs. Herschel Maddox, Mr. and Mrs. Charles G. Wheeler, Mr. and Mrs. A. D. Boylston, Mr. and Mrs. R. J. Tomson, Miss Hester Boylston, R. L. Alexander, Miss Hester May Walker, Miss Eunice Wheeler and A. D. Boylston, Jr., Mr. and Mrs. Charles Waters.

Dinner Parties Given At Druid Hills Club.

Druid Hills Golf Club dinner-dances Thursday evenings are proving to be one of the most popular rendezvous for Atlanta's exclusive society set during the summer months. The tables were arranged on the terrace, each having a basket of summer flowers. Swimming and dancing were enjoyed.

Mrs. Arthur Tuft had as her guests Miss Marjorie Spratt, John Tuft, Arthur Tuft and Rutledge Tuft.

Dr. and Mrs. Hal Miller had as their guests Mr. and Mrs. F. A. Jordan.

Mr. and Mrs. B. R. Clapp entertained Mr. and Mrs. Charles Mell and Mr. and Mrs. Paul Douglas. Mrs. Annie Adair Foster had as her guests Mr. and Mrs. George A. Eckford.

Hugh Carter and Dr. Tom Hinman, Jr., were together.

Mrs. Fred Sears entertained Mr. and Mrs. Wiley Wisdom, Mr. and Mrs. Pierce Layfield, Mr. and Mrs. Frank Hopkins, Mr. and Mrs. Will Cobb Wallace, Mr. and Mrs. Luther McGee, Mrs. E. V. Snipes and Mrs. P. O. Hopkins.

Mr. and Mrs. Hal Steed had as their guests Mr. and Mrs. Noel Park, Misses Peggy Underwood, Elizabeth Sutton, Morgan Sutton and Bill Lambright.

Mr. and Mrs. Frank Dean and Miss May Dean were together.

Mr. and Mrs. H. W. Beers, Mr. and Mrs. A. W. Chase, Mr. and Mrs. Walter Hill and Russell Bridges entertained at parties.

**Miss Lawler Honors
New York Visitor.**

Miss Josephine Lawler entertained Thursday evening at her home on Oakdale road, in Druid Hills, honoring Miss Emily Rendigo, of Forest Hills, N. Y., who is her guest. The guest list included Misses Helen Aiken Smart, Marjorie Spratt, Jean Johnson, Elizabeth Sims, Jane Autry, Ellen Riley, Margaret Morgan, Eleanor Thompson, Dorothy McLaughlin and Isabelle Lawler; John Tufts, Grant Le Roux, Dick Beard, George Ruth, Rutledge Tufts, Bob Brownlee, Dodge Menter, Lorenzo Massengale, Sydney Penny, Donald Lee, Henry Banks, Bob Fulkner, Jack Bagwell and Clare Heidler.

Barrow-Brown

Wedding Announced.

Mr. and Mrs. Robert William Barrow announce the marriage of their daughter, Florence Elizabeth, to George R. Brown, Jr., Thursday, August 1. Mr. and Mrs. Brown will make their home in Louisville, Ky.

Sunday Concert To Be Given.

Beginning Sunday, August 4, and continuing through the month, a musical concert will be given each Sunday afternoon at the Brookhaven Country Club from 4 to 6 o'clock. A concert is also held on the roof garden each Sunday evening from 7 to 9 o'clock.

Miss Shropshire Is Complimented.

Miss Elizabeth Neel was hostess at a swimming party yesterday afternoon at 3:30 o'clock at the Brookhaven, the Capital City Country Club, in compliment to Miss Jane Shropshire, of Rome, the guest of her grandmother, Mrs. A. W. Shropshire, at her home on Vedado way.

After the swim tea was served from a table decorated with summer garden flowers, Mrs. W. R. Neel assisted her daughter in entertaining. Invited to meet the honor guest were Misses Marion Yundt, Lucy Yundt, Mary Russell Tby, Jane Morrow, Kate Jenkins, Margaret Pierce and Miss Hais-

Mrs. J. W. Elder To Entertain.

Mrs. J. W. Elder will entertain at a bridge-tea Monday at her home in Decatur in honor of her cousin, Miss Charlotte Wallace, of Social Circle.

Atlanta Girls Star in Riflery.

Clayton, Ga., August 3.—Atlanta girls are starring in riflery at Laurel Falls camp, a summer camp for girls that is situated at Clayton, Ga., in the Blue Ridge mountains. Laurel Falls is a member of the National Junior Rifle Corps of America, and takes part each year in national contests. Pro-marksmen, marksmen, sharpshooter and gold bar medals are given to those who pass the proficiency tests.

Among the Atlanta girls who hold medals are Misses Suzanne Memminger, Emily Plummer, Natalie Cohen, Dorothy Harris, Sunny Leibman and Martha Moore.

Today's Special

In Sterchi's August FURNITURE SALE 20 Bedroom Suites

Full Size Bed—
French Vanity—
Chest of Drawers
The 3 Pieces Complete

\$79.50

\$4.50 Cash—Balance \$1.50 Week

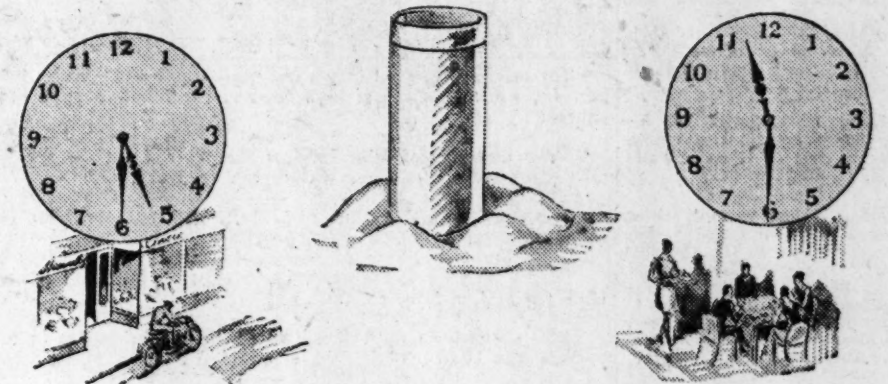

The greatest bedroom value ever! A very high-grade suite constructed of 5-ply walnut veneers and other woods with carved lines and antique maple overlays as shown—dustproof construction top and bottom. Very modern in design. This is just one example of the very extraordinary values that you will find all over Sterchi's big furniture and music stores now, during our August Furniture Sale. Yes, we give you easy terms on every purchase. Grab one of these 20 suites today, sure!

STERCHI'S

Cardinals Sink Rome, 9 to 0, To Take State Sandlot Crown

HARPER FANS 11 MEN, WALKS NONE IN WIN

Atlanta Team To Play in Southern Championship at Meridian.

By Ralph McGill.
Constitution Staff Correspondent.
Albany, Ga., August 2.—Rome fell here this afternoon with a dull, sickening thud as the Inman Park Cardinals of Atlanta rushed to the Georgia state sandlot championship with a fine 9-to-0 victory.

The Peppers of Rome, champions of the state last season, were helpless before the finely balanced play of the Cardinals. Tommy Harper pitched great baseball for the winners, striking out 11 men and allowing not a single base on balls. They got two hits off the 15-year-old Atlanta pitcher and threatened to score only once.

The game was seven innings by agreement, the semi-final game between Albany and Rome requiring more than three hours of play before the Peppers won by a 15-to-1 score.

It was a gala occasion for the low-keyed Cardinals. They skylarked about the hotel until 3 o'clock this morning and went out for a stiff hitting practice in the hot morning sun. It is hottest here around 11 o'clock but the boys took it. It is great to be young and a Cardinal. They were well fagged out after the game and Frank Hawk, the Atlanta Legionnaire in charge, was greatly pleased. He hopes to sleep a bit tonight.

BAT BOY BRAGS.
Bill Gerson, the mite bat boy, gathered up his bats and mallets around with them until one of the boys came to help him. He had a big time, had the little fellow. The girls and boys in the stands, the "look at that little ole mameet," they yelled. But they didn't worry Bill. He and his ten years were on the right side of the score. You air so hot," yelled Bill. "Look at the score." He looked at himself with big eyes. Far from home is Bill but he can laugh at the enemy.

The Cardinals, when the game was done, swaggered off the field a bit. They gave a yell but they swagged. To be in the state at 16 and less is something. So they gathered up their bats and struts in little as the pretty little Albany girls looked on.

The girls sniffed and tossed their heads, but the Cardinals grinned and strutted on to the automobiles.

TALKED IT OVER.
They talked the game over as they undressed at the hotel and fought to see who would be first under the showers.

Life has a kick for them. Hotels, strange crowds, sleeping cars—oh, yes, it's great to be a Cardinal. The champion Cardinals.

The Albany Legion got out a nice crowd for the game and most of it remained to see the Cardinals win at last past six. The Cardinals were the most striking-looking team in the tournament. Their new uniforms, supplied by the Atlanta Legion, were easily the most attractive in the tournament.

The type of baseball played by the Cardinals continues to be amazingly smart. They jumped on the Rome team in the very first inning and never failed to catch them asleep.

The Cardinals stole 10 bases, worked two squeeze plays and employed the sacrifice at the correct moment as if they were a team of professional instead of a team of boys 16 years old and younger.

SUPREME CONFIDENCE.
Their confidence was supreme as they sat in the stands and watched the Peppers slaughter Albany. "Well, we are on the way to Meridian," they said, "if that's all they have." And so they are the state champions.

The championship will be played in Meridian the latter part of the month and the Inman Park Cardinals will be there representing Atlanta. They were very business-like in their victory today.

In the first inning Bill Good, son of manager Willie Good, of the Atlanta Crackers, drove in two runs. The Cardinals got a man on sacrifice, hit down with as beautiful a home run as one would care to see, advanced him to third on a bunt that was run out safely and then saw two score on Good's single.

The second inning saw them steal four bases, get three hits and take advantage of an error to score four runs. That start seemed to take all the pep out of the Peppers. They were up there swinging and they got nowhere at all. Tommy Harper struck out at least one man in each inning and the only threat to score came in the second.

Continued on Third Sport Page.

Ed Danforth

Just one reason why the Crackers are up there in the race: They have picked off 100 double plays according to the daily averages. Nashville is leading the league with 103, but the Cracker keystone pair, Jones and Sheehan, are close enough to be called outstanding.

Many doubt that Jones and Sheehan would function smartly enough around second base this year to earn their salt. Several major league scouts shook their heads sadly in April and pointed out the keystone sector as the weak spot in the Cracker defense.

Shucks!—any time this Johnny Jones finds himself on a ball club that is in sight of a pennant, he is the best minor league shortstop in the business. And any who watched the Crackers win that double-header from the Pelicans is bound to tab Jack Sheehan as an exceptional second baseman.

Sheehan accepted several chances that are not taken this side of the big show. He can throw off balance as well as any infielder in the minor leagues. He and Jones are working together perfectly. Look elsewhere, if at all, for the Crackers' weakness.

Getting Away With It.
Good umpires would not have permitted either of those Cracker Pel games to have been dragged on for hours on end. There are enough rules in the book to make a pitcher work at a reasonable rate of speed.

Clint Brown and Dave Dandridge, in turn, without stopping to consider their actions, do plenty to kill interest in their bread-and-meat business by pitching so leisurely.

It required exactly one hour to play the first four innings of the first game—AND ONLY FOUR HITS AND TWO RUNS WERE MADE BY BOTH TEAMS. That should be enough to draw an indictment against Umpires James and Hopper for allowing ball players to spoil the pastime for paying customers. Only the fact that they would serve, ere close and exciting saved the entertainment from a total artistic loss.

There's a Break!
What a break it was for the Georgia Tech football team that the error in Tom Jones' scholastic standing was discovered in time.

In the old-fashioned nick of time, it was found that unless Tommy Jones, a senior in summer school, was charged against him and he would be ineligible for football this year.

They went and pulled Tom away from his job in the Chevrolet plant and now he is in summer school getting right with the pros.

It will be tough enough on the Tech gridiron cause to replace Frank Waddy, imagine having to find two to replace Waddy and Jones.

Replace All Divots.
Normal operations were suspended at the Capital City Country Club yesterday while the Fifty Club took charge. Tournaments were held for those who played golf, poker, African dominoes, ping pong and bridge.

Dick Courts exhibited his \$402,000 seat in the New York Stock Exchange. The seat was brought out on an armored motor truck heavily guarded.

Jack Harris, top Owens, John Knox, Floyd McKee, Bill Parker and Reg Fleet are going in partnership to buy them one just like Courts'. Or so they say.

Carpenters and Rabbits.
One sidelight on the lively ball question may be gathered from the averages. Poole and Minor runs this year. Both play for the Nashville Vols and the home park has a right field fence so close to the plate that an ordinary fly ball goes over it.

Much of the hop in the rabbit ball was put there by carpenters who built the fences at some parks. Many such parks can be found in the major leagues. Nashville, however, is the only serious offender in the Southern.

Both play for the Nashville Vols and the home park has a right field fence so close to the plate that an ordinary fly ball goes over it.

Miss Maddox Enters Finals

Asheville, N. C., August 2.—(AP)—Miss Deane Van Landingham, of Charlotte, with a 3-and-3 victory over Mrs. W. D. Doake, of Atlanta, and Miss Margaret Maddox, of Atlanta, who defeated Mrs. R. J. Jones, of Winston-Salem, medalist, 2 and 1, today advanced to the final round of the annual Biltmore Forest women's invitation golf tournament. They will meet tomorrow morning in an 18-hole final for the title.

Back With Hope.

Billy Southworth won a pennant at Rochester in 1928. And this year he returned late in July to find the Rochester team with a good lead in the race.

Here It Comes . . . How the Ball Looked to Pel Hitters Yesterday

Above is an unusual action picture made by J. T. Holloway, Constitution staff photographer, showing Don Brennan, of the Crackers, pitching to Bolton, of New Orleans, in the second inning of the game at Spiller field yesterday. The camera caught the ball midway between the pitcher and the batter. Al Lopez is "set" for the pitch, a wide one. Not often does a camera "stop" a baseball so clearly in its flight.

ILLINOIS BOARD ASKED TO QUIT

Governor Desires Resignations of Boxing Commissioners by August 10.

Springfield, Ill., August 2.—(AP)—Governor Louis L. Emmerson today requested the resignation of all three members of the Illinois State Athletic Commission, chairman Paul Prehn, Sam Luzzo, and Al Mann, effective August 10.

In requesting the resignations, Governor Emmerson merely said such a change "would undoubtedly be for the best interests of boxing" in Illinois.

It has been known for some time the governor was contemplating a change in the commission, but the recent protest of Promoter Taddy Harmon, of the Chicago stadium, about the demand of the commission for several hundred seats for tonight's lightweight championship bout between Sammy Mandell and Tony Canzoneri, was believed to have prompted his immediate action.

Prehn, chairman of the commission for three years and head of the National Boxing Association, said he would gladly step out and that he would do everything possible to aid the new commission. He also said he would resign as president of the N. B. A. when that body met here in September. Prehn received his notice of dismissal today.

"However, I want the public to know that there was no 'scandal' attached to the Mandell-Canzoneri ticket hubbub," Prehn said. "We always received certain tickets and gave them to our friends. We were glad to fulfill the governor's request but said they believed they got a 'bad break' because of the so-called ticket scandal. The membership of the new commission was not announced.

Johnny Doe Trims Williams
Seabright, N. J., August 2.—(AP)—A mighty canon ball service backed by a much improved driving game gave 20-year-old Johnny Doe the championship in the classic Seabright invitation tennis tournament today.

Lashed out with deadly power and accuracy, the long left arm of the California southpaw pounded the veteran Richard N. Williams 11 into defeat by scores of 6-3, 7-5, 8-6 in a thrilling final match.

The bronzed young star from Santa Monica dominated the match from the first shot, which Williams banged into the net to the last which fared the same, while a colorful gallery of 800 looked on in surprise and admiration.

Doe, out-guessed and even out-thought by his more experienced opponent throughout the three hotly contested sets. After the first, Doe's superiority was never in doubt although for a moment late in the match it appeared that the Philadelphia might force the issue to extra sets.

California made a clean sweep of the day's two tournament finals, the all-San Francisco combination of Mrs. Lawrence Harper and Miss Edith Cross outplaying Miss Marjorie Morrell, Dedham, Mass., and Miss Josephine Cruikshank, Santa Ana, Cal., 6-4, 6-2, for the honors in women's doubles.

Doe, ranked eighth in the country on his play last year, never looked more impressive than today. His service was almost impregnable. Williams breaking through only three times in the entire match.

Williams, on the other hand, appeared a prey to nervousness hardly to be expected in a veteran of almost 20 years of international play.

Jim Maloney Bout Plans Are Cleared

Boston, August 2.—(United News.)—The way for the Ricardo Bertazzolo-Jimmy Maloney fight scheduled here for August 12 was cleared today when managers of the two heavyweights agreed on the purse.

The boxers will receive 50 per cent of the gate receipts, and of this amount 65 per cent will go to the winner.

A five-hour argument today over a division of the purse threatened for a time to cancel the bout.

Backings

The Montreal club has promised to back the Jeanette club of the Middle Atlantic league and in return gets its stars.

Heinemann Counts His Victories Ere They Are Grabbed

Mr. R. J. Spiller, well known business man on Ponce de Leon avenue, is much amused these days. It has to do with telegrams and an invitation.

On July 29 Mr. Spiller wired the following:

"A. J. Heinemann, 'Pres. N. O. Baseball Club, New Orleans, La.' 'Be sure to come with the team. With good weather will give you a good crowd.'"

The address wired back was as follows:

"R. J. Spiller, 'Pres. Atlanta Baseball Club, Atlanta, Ga.' 'Sorry cannot accept your kind invitation to come to Atlanta. Our team is going to give you such a beating and you will be so embarrassed that you will become tongue-tied. I always like to hear your eloquence when I am around. It isn't good weather I want, it's Heinemann.'"

Offhand it would appear that Mr. Heinemann was slightly misquoted. Imagine his chagrin after the results of the past four games with the Pels.

Schmeling Meets Heeney.
San Francisco, August 2.—(AP)—Joe Jacobs, manager of Max Schmeling, German contender for the heavyweight championship, announced today he had notified the New York State Boxing Commission and Hubert Fugazy, Brooklyn promoter, that Schmeling would box Tom Heeney at Ebbets Field, Brooklyn, probably early in September.

After the Ebbets Field bout Jacobs said, an attempt would be made to arrange a Schmeling-Jack Sharkey fight in New York. If the New York Boxing Commission fails to agree to Jacobs' plan to reinstate Schmeling, the manager said he would probably agree to the plan of William F. Carey, president of the Madison Square Garden Corporation, to hold the Schmeling-Sharkey bout in Detroit instead of Chicago.

DETROIT GETS SHARKEY BOUT

Michigan Board Rules He Must Fight Pierre Charles There.

Detroit, Mich., August 2.—(AP)—The Michigan state boxing commission attempted to emulate King Solomon today and ordered the baby out in two Olympia arena and Floyd Fitzsimmons, of Benton Harbor, were awarded the pieces.

After 24 hours of intermittent meetings, Chairman James (Bingo) Brown announced that Fitzsimmons had been awarded September 5 as the date for a meeting between Jack Sharkey, the Boston gub, and Pierre Charles, Belgian heavyweight, "champion of Europe." The Olympia arena was given permission to hold a fight between Sharkey and Schmeling September 19.

No provision was made to care for the Olympia dilemma in case Charles should defeat Sharkey.

In reaching its decision the boxing commission recognized as valid a contract signed last August for a meeting here between Sharkey and Charles. Sharkey was injured and unable to fight and George Godfrey, negro heavyweight, was substituted for him and knocked out the Belgian in two rounds.

John Buckley, Sharkey's manager, went before the commission last night and agreed to go through with the Charles fight here. Charles is not considered a great drawing card in Detroit after his poor showing against Godfrey.

William F. Carey, president of Madison Square Garden, who arrived from New York today, and Frank Stone, general manager of the Detroit, were in on the conference. They made it understood that they desired to deal in Detroit with no one but Detroit and the boxing commission.

Fitzsimmons is not considered to be in an enviable position. If he holds the Sharkey-Charles bout he stands to lose money in his new arena at the State Fair grounds. It is not believed the match would draw a crowd here.

The Sharkey-Schmeling fight probably will be held at Naven field, which can be arranged to seat 60,000 spectators.

Mandell Keeps Title With Decisive Win

Lightweight Champ, After Bad Start, Gives Challenging Canzoneri Terrific Lacing.

By Charles W. Dunkley, Associated Press Sports Writer.
Chicago, August 2.—(AP)—A courageous young man named Tony Canzoneri, once ruler of the world's featherweights, attempted to annex the lightweight championship from Sammy Mandell in the Chicago stadium tonight and received the boxing lesson of his life.

Mandell, off to a bad start, when he dropped the first two rounds to Canzoneri, opened up in the middle of the third round, and from then on hit the Italian with everything he could think of. Canzoneri, attempting to score a knockout, continually charged in close, but got nowhere.

Mandell's left hand furnished the kick that turned back the ambitions of the New Orleans bootblack. The champion splashed lefts into Tony's face and thundered rights to the body, and the result never was in doubt.

The decision of the two judges and Referee Dave Barry, however, was not unanimous. Barry, whose "fourteen-second" count in the Dempsey-Tunney heavyweight championship battle created such a furor, cast his ballot in favor of Canzoneri, with the judges voting for the champion. The judges were "Little Phil" Collins, rated as one of the ablest referees in Chicago and Ed Klein, with a record of three years of officiating.

Canzoneri learned early that his only chance of victory was landing a knockout punch on the champion's chin. He started out to accomplish this and for the first two rounds he was ruler of the lightweight domain.

He reached Mandell repeatedly with his left hand, cracking the champion's chin and left hooks to the head and body. He chased Mandell into the corners and into the ropes, slashing away with both hands.

MANDELL SURPRISED.
Mandell, apparently, was in no danger, but there was no doubt as to his surprise. With the opening of the third round he began to solve Canzoneri's attack and from then on he began to pepper Tony with lefts to the face, right crosses to the chin and right uppercuts. He moved out in front steadily and remained there until the eighth when Canzoneri managed to fight effectively enough to make the session an even affair. Then Mandell spurted out in front in the ninth and tenth rounds, and in the tenth round only got him beating.

About the best that could be said of Canzoneri, was that he was always trying. At times Mandell merely stuck his left glove into Canzoneri's face, holding him off while Tony, in desperation swung wildly at the air.

Mandell surprised his followers by weighing in at exactly 135 pounds, the lightweight limit. Canzoneri sealed his lips with a wide grin, a disadvantage in height and reach. Canzoneri was surprised at the decision.

CANZONERI SQUAWKS.
"I don't mind losing, but I do not think Mandell defeated me. I made good my promise to Chicagoans that I would give them all I had. I said I thought that would be enough to win. In all fairness to myself, I think I won."

Mandell declared Canzoneri gave him the hardest fight of his career. Sammy Goldmann, manager of the challenger believed that Canzoneri won the majority of the rounds and that in his opinion he won the fight.

Eddie Kane, manager of the world's champion, said Mandell's ring smartness and more accurate punching brought him the decision.

Charleston Leads Swimming Meet
Charlotte, N. C., August 2.—(AP)—Charleston, winner of the 1928 meet, took a four-point lead today in the opening events of the two-day mid-Atlantic swimming meet here. The South Carolina entry, with 37 points, was closely followed by the Knoxville (Tenn.) team with 33. Savannah, Ga., runner-up last year, was in fourth place with 22 points, one point behind the Charlotte team, which stood third with 23 points.

Winston-Salem stood 16. Chattanooga 14. Hickory 2. Asheville 1, and Wilmington 1.

The Flag Race Day-by-Day
Atlanta gained one full game on both Birmingham and New Orleans Friday by a 7-to-5 victory over the Pels, while Birmingham was losing, 10 to 3, to Mobile.

The Crackers are now only three and one-half games out of first place and one-half game behind New Orleans, in second place. A victory today over New Orleans will give the Crackers second place by a half game margin.

LOPEZ, SHEEHAN, PARHAM, BURRUS LEAD ATTACK

Sixth-Inning Rally Brings Victory—Final Game Today.

John C. Oldham, the Grand Old-ham himself, waved his freckled left paw once more yesterday and the New Orleans Pelicans fell, 7 to 5.

The red-tailed hawk had come to the relief of big Don Brennan, after four innings, and he blanketed the Pelicans with a net. The Pels could do no better than the Grand Old-ham's mound magic. Meanwhile his teammates who never seem to realize when they are licked beat their way through four Pel pitchers to win.

It was only the day before that "Red" Oldham had beaten the Pelicans at dusk in the second game of the double header, 2 to 1, twice in two days. "Red" has mowed them down. The Pelicans last night were plumb tired of "Red" Oldham.

CRACKERS CLIMB.
The victory, the third in two days, boosted the Crackers to within half a game of the Pelicans' second place berth. A victory today in the final of the series will put the home club on the best of the Barons.

And at the rate the Barons are crumbling—they lost to Mobile yesterday—the Crackers will overhaul the leaders before another week has passed. The margin now dividing the House of Good from the upper floor is just one game and a half game.

The Pelicans lost the fourth game of the series when their pitching brigade—four of them—collapsed entirely. The whole crowd seemed to be suffering from acute astigmatism, or maybe dementia praecox. They passed out enough free tickets to first base to make back his triple 2 to 1 value. Harder and Johnson were no defensive bargain and if "Lefty" Fuh had not stepped into the breach the Crackers might have scored a dozen more runs.

INGLORIOUS FINALE.
The Pelican finale itself was inglorious. They started a furious rally in the ninth when they were two runs behind and actually got two runs on base. With two down and Dorman on first Pitcher Beane was sent up by Manager Gierst to pinch hit for Bolton. Beane poked a single past Frank Haley into left field. Dorman legged it around to third. But poor old Beane charged in to pitch. From Oldham, pitched to Tommy Taylor, strayed too far from the bag. Oldham caught him flatfooted with a great ball and actually got the bases empty as a carnival balloon touched with a cigarette.

The Cracker victory was a demonstration of the old-fashioned game. Nearly every man drove in a run. Dick Burrus, blazing once more after a period of comparative silence, shot two runners across with clean base hits. Incidentally the same Burrus who dropped an infield pop fly the day before yesterday squared that account by a leaping catch of a well-batted ball. Haley that might have cost the Crackers the game in the ninth.

The game was engrossing to the 5,500 who were on hand. The lead changed hands four times; fortunately it veered last toward the Crackers. It was veering toward the Pels again in the ninth when the bases were failed to use his noggin and was picked off first base.

KARR STARTS.
Benjamin Karr, the fork-ball and farming club, who has been pitching for the Pels but the Crackers, like the administration, gave the farmer no relief whatever. They moved his bat with three solid base knocks and two runners counted. Manager Gilbert supplied the relief in

Pittsburgh Is Blanked by Phillies, Cubs Are Halted by Rain

Hurst's Home Run Sinks Cubs, 2-0

Chicago Now Has Lead of 5½ Games Over Pittsburgh—Cards Win Again.

Although held idle by the rain, the Chicago Cubs gained half a game in the National League pennant race Friday when the Phillies beat Pittsburgh, 2 to 0. The Cubs now lead the league by 5½ games over the Pirates.

Captain Pie Traynor returned to the Pittsburgh lineup after a month's absence due to an injured leg, and got a double in four trips. The Pirates made 11 hits off Sweetland but were unable to produce a single run. Larry French held the Phillies to six hits but a home run by Hurst and a wild throw by Clarke, Pittsburgh shortstop, which allowed Hurst to score, accounted for two runs.

The St. Louis Cardinals hammered out a 14-0 victory over Brooklyn.

Ga.-Ala. League

CELESTOWN'S SECOND STRAIGHT.

CELESTOWN, ALA., Aug. 2.—(AP)—The Celestowns won their second straight game today, defeating the Birmingham Bears, 2 to 0.

The Celestowns scored two runs in the first inning on a home run by Hurst and a wild throw by Clarke, Pittsburgh shortstop, which allowed Hurst to score, accounted for two runs.

DEAN OF HORSE TRAINERS DIES

James Rowe, Sr., Foremost in Country, Passes at Saratoga.

Saratoga Springs, N. Y., August 2.—(AP)—James Rowe, Sr., dean of the thoroughbred race horse trainers, died here today after more than half a century of riding and training winners on American turf.

Although 70 years of age, Jimmy, who was known to the racing fraternity, was active in the preparation of Harry Payne Whitney's runners for the track until the opening of the Metropolitan season when he was forced to relinquish the reins to his son, James Rowe, Jr. His condition, however, became worse two days ago and he was taken to a hospital where he died.

A half century of training thoroughbreds has seen some of the best horses that ever trod on an American track under Rowe's tutelage. In his early days as a trainer he sent out the great Luke Blackburn and One Love—two of America's horses of history.

Then followed such an array as Potomac, Pennant, Chacuncun, winner of the old Sheepshead steeplechase, and others. Rowe's record in the early days of his training was such that he was known as the "Dean of Horse Trainers."

Not an important stake on the North American circuit escaped the veteran trainer. In 1914 he saddled Regret, winner of the Kentucky derby, who was always regarded by Rowe as the greatest race horse he ever trained.

It was during the Civil War days that Rowe first felt the call of the turf. From 1865 to 1869 he was booting home winners but in the early 70s he gave up the saddle and began training horses for Phil Dwyer, his brother-in-law. Later he was associated with the late James H. Keene, the late August Belmont and finally with Harry Payne Whitney.

James Rowe, Jr., will become head trainer of the stable.

ARLINGTON ENDS MEET IN MUD

William T. Wins Feature Over Mediocre Field; Favorites Scratched.

By Orlo L. Robertson, Associated Press Sports Writer.

New York, Aug. 2.—(AP)—Rain and mud combined to bring the otherwise successful Arlington Park meet to a premature end today.

Although the promise of a brilliant horse race met almost a farce with only four starters of mediocre ability.

With Misstep, conqueror of the country's best handicap field in the Arlington handicap; Downage, Cannon and Easter Stockings, which were slated to battle for the rich turf award, scratched, William T. won the race.

William T. won the race, which was the only one of the day. The other races were scratched.

A's Overcome Lead To Beat Detroit

Eight Down In Second Macks Win, 11 to 10 As Yankees Drop Another

An indomitable fighting spirit of the Philadelphia Athletics overcame an eight-run handicap Friday and the American league leaders beat Detroit, 11 to 10, and increased their lead to 11½ games.

Behind 8-0 at the start of the last of the second inning the A's fought an uphill battle until they forged ahead with a three-run rally in the eighth. Harry Heilmann hit two home runs and Alexander and McManus one each for the Tigers.

A four-run rally in the ninth by Cleveland sent the New York Yankees down to a 9-8 defeat. Bill Falk's home run with two mates on base in the ninth and won the game. Twice the Yankees had three-run leads and the game apparently cinched.

Timely hits by Bill Barrett and Bill Regan in the tenth inning gave the Boston Red Sox a 5-0 victory over the Chicago White Sox.

Washington beat the St. Louis Browns, 5 to 3. Irving Hatcher pitched a seventh-inning no-hitter.

DETROIT, Aug. 2.—(AP)—The Philadelphia Athletics overcame an eight-run handicap Friday and the American league leaders beat Detroit, 11 to 10, and increased their lead to 11½ games.

Dick Garlington Downs Walsh for Capital City Golf Title

NEW CHAMP BURNS COURSE IN AFTERNOON

Begins Afternoon Round
With Margin of 10
Holes.

Shooting spectacular golf in the last nine holes of the morning round, Dick Garlington, Atlanta golfer, defeated Tully Walsh, a fellow club member, 9-8, Friday on the Capital City course in the 36-hole match for the Capital City club championship for 1929.

Garlington won every hole on the last nine of the morning round and at the beginning of the afternoon round of 18 holes was 10 up.

Garlington was in the upper bracket and Walsh in the lower bracket of the championship field and both players had to meet some of the best golfing talent in the city to win their way to the finals.

Garlington eliminated Charlie Black, Jr., medalist, and John Grant, Jr., last year's champion, while Walsh defeated Dave Black and John Westmoreland in the early rounds.

Both players were "on their game" Friday despite the large majority of holes piled up by Garlington. At the end of the first nine holes Garlington was one up with a 28, three strokes above par, while Walsh scored a 39, four strokes above par.

In his spectacular round Garlington scored a birdie three on the 17th green and a birdie four on the 18th. He missed an eagle three on the 18th green by a fraction of an inch when he putted from about 10 feet away.

Garlington did not play such a spectacular game after lunch and won only four holes on the first nine, while Walsh cut the lead down to eight holes, but could not hope to overtake such a lead as Garlington had piled up on the last nine of the morning round.

The match ended on the 10th green of the afternoon round while Walsh was taking a five.

Baseball Halls Golf.

With Atlanta in the thick of the pennant race in the Southern league, Atlanta golfers have been busy witnessing the Cracker-Pel series this week and don't want to be left out. Ansel Park golfers are in the midst of a club handicap tournament. Forrest Hills golfers are playing first round matches in their annual club tournament, and West End golfers are in the semi-final matches of a club handicap tournament.

Two matches were played Friday at Ansel Park when Dr. W. H. Major defeated A. Y. Evans, 2-1, for the finals in the fifth flight and W. A. Sharp defeated L. A. Burdett, 3-2, in the fourth flight.

At Forrest Hills only one match was played, when John Cuvus defeated S. N. Roberts, 3-2, in the first flight.

Oil Company Meet Opens.

Qualifying rounds for the Texas Company trophy will be completed today over the East Lake Country Club. Friday and Saturday were selected as the qualifying days for the tournament, but only one or two rounds were completed Friday.

Match play will start Sunday and first round matches will be completed by Thursday. Second round matches will be completed Sunday, August 11; semi-final rounds will be played before Thursday, August 15, and finals will be played August 18.

Smith Grabs Insurance Medal.

Muggsy Smith with a 77 was low medalist Friday over the Black Rock course in the first 18 holes of a tournament to decide the individual champion insurance golfer of the city. More than 50 participated in the first round of 18 holes. W. W. Roberts was second with an 82.

Final 18 holes in the tournament will be played next Tuesday over the East Lake course as a feature of the annual outing and picnic of all insurance company employees in the city. Four trophies will be presented winners in the tournament, one to the low medalist, one to the low gross scorer, one to the runner-up and a trophy to the high medalist.

Competes at Lakewood Today

"Easy" Pickens, Atlanta motorcycle racer, above, will compete this afternoon at Lakewood in the motorcycle race meet to be staged at the park. Pickens is one of the fastest riders in the south, and will make it hard for the rest of the boys this afternoon.

RACES CARD AT LAKEWOOD

Fast Field Seeks Prizes in
Motorcycle Speed
Events.

With the fastest track in the history of the Lakewood oval, the two, three and five-mile southern championship motorcycle races today are certain to be productive of new speed records, according to riders who have been turning up their machines for the past two weeks.

New records, too, are pointed on account of the high-class field. The cream of motorcycle racers in the south is represented, including favorites who have been in favor with local fans for years.

Atlanta enthusiasts will be out cheering for Jack Haney, Whit Roberts and Easy Pickens. Guy Hagood, Hugh Wayne, Mr. and Mrs. Bob Kendrick, Clarence Pearce and other local speedsters are other Atlanta entrants.

Carl Smith, Tennessee state champion, will be hard to beat. Moot Jones, Florida titlist, who is going to try and straighten out Lakewood's curves, is going to have an argument to put up in his own behalf. Sam Bright has two machines, which will be piloted by "dark horses." He will nominate his riders some time today.

With skillful entries, fast machines and a perfectly conditioned track, and a reduction in admission price to the grandstand and special street car service to and from the park and ample parking facilities for automobiles, the prospect of keen enjoyment is assured.

The one-mile trial will get under way at 2 o'clock.

Davison-Paxon Co. Golf Match Today

Another of the weekly golf tournaments for employees of the Davison-Paxon Company will be held today over the Ingleside Club course in Avondale Estates. It was announced Friday by Chess Largomansine, in charge of the tourney.

Handicaps will apply and prizes will be given to the low gross and the low net scorers.

Players will start the 18-hole round of medal play at 7:30 o'clock.

Fulton Bag Plays At Fort Mac Sunday

Fulton Bag and Cotton Mills team and the Twenty-second Infantry stationed at Fort McPherson will play Sunday afternoon at 1:30 o'clock. Ample parking space has been provided for visitors.

Indian Relics Hold Atlanta Sandlotters

Henry McIntosh, Albany Publisher, Entertains
Legion Ball Team During State Series.

By Ralph McGill.
Staff Correspondent.

Albany, Ga., August 2.—Atlanta's sandlot champions, the Inman Park Cardinals, went back today to the days when the fierce war lords of the Creek Indians stalked through Georgia fighting the Spaniard in their coats of mail and the white man with the long rifle.

It was the Indian relic collection of Henry T. McIntosh, editor of the Albany Herald, that entranced the boys and brought visions of tall, copper-skinned Indians stalking the land where Albany bustles today.

The lower Flint river valley, rich in soil and history, was the stronghold of the Creek Indians. It was the home, too, of some race that preceded the Indians, leaving only mounds and pottery as evidence of a civilization that existed long before any mind in Europe dreamed of challenging the horizon, years before Erie, the Red, set sail in his galleon in the cold seas of the north.

They are gone now, the Creeks, gone since 1826 when the bowed to the inevitable and went to a government reservation. In their ghostly still stalk Flint river.

Flint river, red in the spring from the floods that come down from the red hills of the counties around Fulton, flows at the foot of Pine street in Albany. The boats ply up to Albany, going on down to where the Chitahoches and the Flint join to form the Appalachicola at the Florida line.

FAMOUS COLLECTION.
The Flint river's headwaters are in the outskirts of Atlanta, where Mud creek, Cato creek and Morning creek unite to form the Flint. It is the lower Flint river valley, here in Dougherty, Calhoun and Baker counties, was the center of the great Creek nation.

It is a collection from this valley that is famous in the annals of the collector. Mr. McIntosh's collection is the finest collection in the world and it was a section of this, displayed in the hotel, that entranced the Inman Park Cardinals.

It has been gathered by the Albany collector with the aid of friends and employees, from all the Flint valley. Boys now-a-days don't go for the light. They like red wine in a crystal glass. In this group are the arrow heads, spear heads, scrapers, drills and tomahawks.

There is also a pink group and another in a white flint that are also beautifully and artistically done. The chipping shows a meticulousness of craftsmanship that is remarkable. The Creeks liked war and they saw to it that their flint weapons were the best.

Now and then as the Flint river wears away the banks, a grave comes to light. In it will be found perfect pottery that is as beautiful in design and symmetry as those of ancient Greece.

The Indian weapons were just a few of the things that have entertained the Cardinals. They had a big night at the hotel and slept contentedly little. They get a tremendous kick out of just being alive, do these boys. After their banquet last night they walked about the town, visited the drug stores and found it great to be young and alive.

Joe Kiefer will pitch today in the final. A victory will put the Crackers in second place. Larry Gilbert, pitcher for the Cardinals, has been used since the Crackers were not prepared last night to announce a pitcher. Furr, however, seems most likely the starter.

Philadelphia Wins Scull Title

Springfield, Mass., August 2.—(AP) Kenneth Myers, of the Bachelors' Regatta Club, of Philadelphia, today won the National Rowing Association's single sculls title by defeating three crack Canadian oarsmen in an exciting mile and a quarter race here on the Connecticut river.

The Philadelphia runner-up in the last Olympic sculling, defeated Jack Guest, of Toronto, the Canadian champion, by three-quarters of a length in 7 minutes 25.5 seconds. Elwood Boles, of Winnipeg, Canadian junior champion, finished third, ten lengths behind Guest, and Jack Durnan, of Toronto, was fourth and last, two lengths in Boles' wake.

Polo Handicap Of Texan Raised

New York, August 2.—(AP)—Handicap changes announced by the United States Polo Association have added another seven-goal player to the national list.

Freel Smith, of the Austin (Texas) Polo Club, has played such a fine game of polo in the east this season that his handicap has been raised from six goals to seven.

Two other prominent players were raised from five goals to six—H. W. Williams, of Austin, and Aiden Roark, brother of Captain C. T. I. Roark, the British internationalist.

LUTHERAN PLAYS DOUBE - HEADER AT GRANT PARK

F a s t-Stepping Whittier
Team Faces Terminal
Club This Afternoon.

Central Presbyterian and Gordon Street Presbyterian will battle in the feature game of the Y-Church league at Grant park Saturday afternoon with the winner gaining half ownership of the Fulton league. Center Street Methodist, owner of the other half, rests.

Oakland City Baptist meets New Antioch Baptist in the next game of the Sewanee league. The former club is leading, while the other holds a first division berth.

"Becky" Speaks and company, representing the Bethany Methodist church, plays North Atlanta Baptist at Maddox park.

The winner will go into runner-up position with a possible tie for the lead, as the present leaders, North-west Atlanta Baptist, must down the fast Nellie Dodd Methodist team to keep ahead.

The complete schedule for the series follows:

DIXIE LEAGUE.

Boethian Class vs. Peachtree Christian at Adair park.

Nellie Dodd Methodist vs. North-west Atlanta Baptist at Oakley park.

North Atlanta Baptist vs. Bethany Methodist at Maddox park.

SEWANE LEAGUE.

Hale Class vs. J. O. Y. Class at Brighton park.

New Antioch vs. Oakland City Baptist at Oakland City.

Yomela-Pepp vs. Yomela-Pepp.

PEDMONT LEAGUE.

Park Street Methodist vs. Calvary Methodist at Joe Brown.

Patillo Memorial vs. Buckhead Baptist at Buckhead.

Bolton Methodist vs. Inman Park Baptist at Piedmont park.

GEORGIA LEAGUE.

St. Carmel Christian vs. Hapeville Methodist at Hapeville.

East Point Baptist vs. Orchard Knob at Orchard Knob.

Mountain View Baptist vs. Mt. Zion Methodist at Mt. Zion 2 p. m.

College Park Baptist vs. Capital View Methodist at Watway 4 p. m.

FULTON LEAGUE.

Gordon St. Presbyterian vs. Central Presbyterian at Grant park.

Grant Park Methodist vs. Clifton Presbyterian at Watway 4 p. m.

Center St. Methodists rests.

Lutheran Plays Two Games Today.

In an endeavor to wind up the full schedule the Lutheran Church of the Redeemer will play two teams Saturday at Grant park, starting at 2 o'clock. The first game will be against the Central Presbyterian team, and the second game will be against the Inman Park team.

Although these games have no bearing on the championship of the American S. A. A. by winning both games Lutheran can gain permanent possession of fourth place.

The series for the championship of the S. S. A. between Grace Methodist, winner of the American, and Edgewood Baptist, winner of the National, has been set for August 10 and 17, both games to be played at Clifton field.

To the winner of the best two out of three games will go the Southern States Life Insurance Company cup, one of the prettiest cups to be put up for summer play. A team has to win this cup three times to become permanent owner of it.

Whittier Faces Terminal Today.

Whittier Mills has been turning in some good work since "Tub" Dowda began playing ball the week around. In his last game, against the Central Presbyterian team, he pitched a perfect game, winning the game for the Whittier team.

Terminal stands second in the percentage column, and is going to do its best to stay in the lead. This game will be played at Clay Field and should draw a large crowd.

Southern Railway and Grinnell will fight out for first place in the city league at the Clifton Avenue Circus Grounds. Frank Anderson will call them at the circus grounds and Monk Dorfan at the Tech diamond.

The SPONTANEOUS Grantland Rice SPORTSMAN

The Best Pitching Staff.

The merry-go-round of sport is always cluttered up with a flurry of arguments, but there is no greater argument left as to the best pitching staff in baseball. It belongs to the Athletics, and this same staff will have a vital effect on the next world series.

No other club can offer such a trio as Grove, Walberg and Earnshaw as a leading trio, and these in turn are backed up by Ehmeke, Rommel and Quinn, who are not the worst in the world. If any pitcher is to turn in 30 victories this season and bring back memories of Mathewson, Walsh, Johnson, Alexander and Chesbro it will be a member of this Athletics cast. The top three mentioned all have a chance, with Grove favored to lead the pack. The big left-hander is not only traveling like the west wind, but he is backed up by a hard-hitting ball club that can provide him with the supporting runs.

One star pitcher is usually about all most ball clubs can claim, but three make pennant winning fairly simple.

This is the first time Connie Mack has gathered together the best pitching staff in baseball. In 1905 he had Waddell, Plank, Bender and Coughlin. In 1910 he had Bender, Plank and Coughlin. The Chippewa Chief, the Gettysburg Guide and the Colby Carbine are still remembered.

Another Department.

In addition to pitching strength, what other ball club can match the Athletics when it comes to a board of strategy? What other manager can show two smarter aides than Eddie Collins and Kid Gleason? Columbia Eddie and the Kid know more baseball than most teams will ever learn. This goes from the physical to the psychological side. They are two of the smartest of all time, and you can go back beyond Comiskey. If any club directorate can out-think Mack, Collins and Gleason it will have to start in pondering before daybreak.

The Better Class.

A fight fan wishes to know which class has furnished the better talent in the heavyweights or the lightweights.

The lightweights—by a span. In the last 40 years the best of the heavyweights have been Sullivan, Jackson, Corbett, Jeffries, Fitzsimmons, Langford, Johnson, Willard, Dempsey and Tunney.

Through this same period the lightweights have offered Lvgigne, Erne, McAllister, Gans, Britt, Nelson, Wolgast, Owen Moran, Ritchie, Welsh and Leonard. And Sammy Mandell.

Yet no class has presented three better men than the middleweights have had to offer with Fitzsimmons, Ketchel and Greb. Here are three of the greatest in any class.

The Luck of Qualifying.

Cyril Tolley's return to the United States recalls the rasping luck he suffered in his last invasion when he failed to qualify a Merion by a stroke. It was on this same occasion that Jess Sweetser slipped by a single shot, and Sweetser was then at or near his height of golf fame.

The luck that Tolley suffered came upon the greens. In his last 18-hole test he had something like 10 putts to hole that were less than an inch or two from the cup. In other words, he had 10 putts that wavered or rimmed or fluttered around the tin without dropping.

The putt for an inch or half an inch counts as much of a stroke as a full drive. To have to do this in one round that you can knock in with one hand puts a heavy burden on the rest of the game. There can be a big difference in the play needed to get a score of 78, for example. At one time the 78 can result from a series of putts ranging from three to ten feet. That is the type of 78 that might easily be an 85. The 78 got where putt after putt is tapped in at close range might just as easily have been a 73.

One can stand the strain of watching putt after putt from a reasonable range roll up to the cup and turn away at a spin or flutter in and then pop out. There is, of course, a big premium on putting skill. But there is also a big premium on the "luck of the green," a factor that can make a terrific difference in any round at any given time.

"Three thousand miles," writes a golfer, "is a long way to go for a tournament if you don't qualify." Still 3,000 miles isn't a long way to travel for the opportunity of playing golf at Pebble Beach, Cypress Point and other courses on the Monterey peninsula. As those who make the trip in the next few weeks will testify at full length.

There is a rumor around that the French are becoming interested in tennis and soon will take up the game and give it a trial.

All Senor Campolo needs is to prove how much he can take. The rest of it should be fairly simple. The first part of the job always has its jarring technicalities.

Tilden's Cup Record Due for Long Stand

American Tennis Ace Has Won 16 Matches in
Competition for Historic Trophy.

By William Ritt.

New York, August 2.—William Tecumseh Tilden, II, whose name is now being consigned to the Valhalla of international tennis, to a hallowed niche in the record book's hall of fame where his shadow may keep company with the wraiths of the bygone great, may rest reasonably assured that none will come in after years to top the record he set in 10 years of international net warfare.

Tilden had no predecessor in international tennis who even approximated his playing stature. And in view of his 16 singles victories in Davis cup challenge round play it is fairly safe to say that none will come who can surpass his record.

15 STRAIGHT.

Tilden won 13 consecutive Davis cup challenge round single matches, his string being broken in 1925 by Rene Lacoste of France, Tilden being handicapped at the time by a weak knee. Tilden lost but four Davis cup matches, one each in 1925, 1927, 1928 and 1929. But he also scored a triumph in each of these years.

In his international doubles matches Big Bill was victorious four times, giving him a life Davis cup record of 20 victories to six defeats.

Only Little Bill Johnston, for many years a teammate, came anywhere near Big Bill's singles record. Johnston won 11 times before he slowed up.

Rene Lacoste, whom many thought would become the equal of Big Bill, had won but four singles matches when he quit.

OTHERS FALL BELOW.

Other great Davis cup stars fell away below Tilden when victories are counted. The great Norman Brookes of Australia stopped at nine, Hugh Dougherty of England could not add to his eight wins, and the current champion of international tennis, Henri Cochet, has only won five international singles matches.

Great as he is, Cochet is still 11 victories short of Big Bill's mark and it is fairly safe to bet that he will never reach it.

The passing of Big Bill from international tennis—he has announced this is his last year in cup play—takes from tennis its greatest knight, whose lance was but a hoop of wood webbed by strings of catgut and whose charger consisted of just his own feet, sure feet.

TILDEN'S RECORD.

1920—Won from Norman Brookes, Australia, 3-1. Won from Gerald Patterson, Australia, 3-2.

1921—Won from Zeno Shimizu, Japan, 3-2. Won from Ichiji Kuwagawa, Japan, 3-0.

1922—Won from Gerald Patterson, Australia, 3-0. Won from James Anderson, Australia, 3-2.

1923—Won from John Hawkes, Australia, 3-0. Won from James Anderson, Australia, 3-1.

1924—Won from Gerald Patterson, Australia, 3-1. Won from Pat O'Hara Wood, Australia, 3-0.

1925—Won from Jean Borotra, France, 3-2. Won from Rene Lacoste, France, 3-2.

1926—Won from Jean Borotra, France, 3-1.

SHEER SKILL GAVE VICTORY TO MANDELL

Benny Leonard Says
Champion Proves Self
Worthy of Crown.

By Benny Leonard,
Retired Undefeated Lightweight
Champion.

(Copyright, 1929, by the North American Newspaper Alliance.)

Chicago Stadium, August 2. Sammy Mandell retains his title as lightweight champion of the world by sheer boxing skill.

Canzoneri started out in the first round with the right idea. Chasing the champion around the ring, pounding him with lefts and rights to the head. Mandell tried to tie Tony up in close but Canzoneri was too strong and pounded his way out of a clinch.

As the bell ended the first round Canzoneri looked like the champion. In the second round Tony lost his one big chance when he staggered Mandell with a right to the jaw. The champion was shaken by the blow. Tony noticed this and started after Mandell. He threw rights and lefts which caught Mandell on the side of his head as he was backing away.

In this round Mandell, the champion, proved himself worthy of his crown. His cunning and side stepping saved him from bearing down. Near the end of this round Tony started jumping around with both hands dug in at his sides. And while Canzoneri was doing this Sammy Mandell had pulled himself together, started boxing and landed a number of great left-hand jabs to Canzoneri's face in succession.

TURNING POINT.

The third round found Mandell up straight in his usual style, sliding around and using his famous straight left, which found its mark on Tony's face. This was the turning point of the contest. As the fight progressed, Mandell boxed better and at times held Canzoneri with his long left hand propped on Tony's head and while Mandell was doing this Canzoneri sent a long left and right swing which missed. It was not a spectacular affair. Outside of the right-hand punches, in the second round landed by Tony, which almost upset the champion, it was a mild contest.

Zaidi from the dangerous situation that faced the champion in those first two rounds, when it really looked quite serious for him, there was no big moment. In other words, I know from my own experience that Mandell was all right throughout the rest of the fight, even when it looked as if the challenger was giving him quite a rush.

Of course the fight was without knockdowns and it was remarkably free from blood. Tony is not much of a brawler but he was well redheaded and there was a light cut over his right eye at the finish. That damaged right eye was pretty well mounded up by the end of the fight.

MANDELL DISSATISFIED.

Mandell was not satisfied with his showing. After the fight he said to me: "I simply did not get started. Benny Canzoneri did not help me. That punch in the second slowed me up for a while and I could not seem to think so well. You know how it is. But I realized that I had to resort to boxing in order to ward off Canzoneri's rushes. After I found that he could not get away from my left I knew that I was safe and after I had piled up a pretty good lead I figured I would let him have a few hard ones. He is a strong little fellow and hard to hurt. He gave me a good fight."

Canzoneri was disappointed at the result. "I really thought I won, Benny," he said. "The champion never hurt me and I staggered him and hurt him several times. I'll say he's the cleverest fellow I ever fought, but I think I was stronger than he tonight and I believe that my forcing entitled me to the honors. I only wish I had been a 15-round fighter, for then I know that I would be champion of the world tonight."

Tony certainly gave an excellent account of himself. He went into the ring a three-to-one shot but he fought like an even money bet.

CARDS WIN STATE TITLE

Continued from First Sport Page.

Inning when the first two men singled the only hits of the game—and then stood for the bases while two men struck out. Clements, the Pepperell second baseman, stole third and was trapped off third by the old bats to throw to second where the Pepperell first started to steal.

They played wide-awake baseball of that type throughout the game. The battery of "Whistle" Roberts, behind the plate, and Harper in the box, performed perfectly. Roberts is a smart little catcher and he handles his pitchers with real intelligence. Only one Roman died on base of two that got there.

The "Dog" Leary who took the hitting lead for the afternoon. In four times at bat he got three hits and the centerfielder dropped his other effort. He scored twice and stole three bases.

"Bubber" Yarder, at third, and Alf Anderson at second, played good ball. It was difficult to select a star from the youngsters for they were chattering like a lot of magpies throughout the game and on their toes all the way.

Atlanta has had a lot of champions—but none that has played more earnestly than these. They made a fine impression here and they played like champions. They certainly deserve to be the guest of some theater manager in Atlanta. After all, the sandlot championship of the state of Georgia isn't such a small thing. The champions arrive home Saturday morning.

Hurricanes Play.

Pullman Hurricane, one of the strongest colored teams in the city, will play the Atlanta Braves at 7:30 o'clock this afternoon on the Morehouse baseball field.

SYNOPSIS.

The Bundys and the Blades, old Long Island families, have maintained a feud for generations, but Martha Bundy, just out of college, and too modern for feuds, sides over family traditions and goes to live in New York, where, with Jerry Breen, artist, model, she organizes a business as an agent for artists. Her brothers, Theron, Gelson, Damon and Pryliss, keep an eye on her, and, when Theron and Gelson find her in a speakeasy with Mortimer Blade, of the reamy family, they beat Mortimer up. Martha furiously denounces them.

Meanwhile Martha becomes more and more interested in Richard Lane, an artist, who bears a striking resemblance to Mortimer Blade, and who has some mysterious connection with the Blade family. The Bundys—the father and his four sons—are devoting themselves to Long Island real estate in a big way.

TWELFTH INSTALLMENT.

Mortimer nodded. "But I don't understand this bank move of yours."

"Possibly not. But a bank is a source of money. It holds, for instance, the Bundy mortgage. Suppose the thing comes to maturity and the Bundys must make a renewal. And suppose it is not renewed. A charming speculation. . . . Or, as an official of the bank, suppose I was to buy the mortgage. I fancy the Bundy clan would experience some agitation at news that I held the mortgage on their land."

"And we standing ready to gather up the ruins for a song," said Mortimer.

"My thoughts precisely," said Mr. Blade.

"A square division, though," said Mortimer.

"In this thing," said Mr. Blade, "we cannot afford to bicker. For once we must emulate the family solidarity of the Bundys. The loyalty of all to one and of one to all. A noble attribute!"

"And there's the girl," said Mortimer.

"I think I would not pursue that angle of the matter too far," said Mr. Blade. "You might not be extant to enjoy the Bundy debacle. They're medieval, you know."

"I'll take care of myself," said Mortimer, "and, by the way, I commence now. When you take over that Bundy mortgage—if you do—it must be in our names jointly. Yours and mine."

"How we Blades do trust each other!" said his father.

"That," said Mortimer, "is how it lies. Does it go?"

"I suppose it must," said Mr. Blade thoughtfully. He was silent a moment. "But there's one fly in the amber," he said.

"What's that?"

"A young man," said Mr. Blade, "by the name of Lane—a Frenchman, I understand, and a painter—with a studio on West Sixty-seventh street."

Mortimer's mouth opened—his jaws seemed to drop.

"You know?" he demanded.

"For some several weeks. A chance meeting and not wholly satisfactory. . . . An arrival in America about which you did not take me into your confidence."

"What does he mean to do?"

"Upon that point he was reticent. Did you have any better luck with him? I understand you have made several attempts."

"I couldn't even find out if he knows anything or even suspects anything."

"One couldn't," said Mr. Blade. "He rather compels admiration—and gives

rise to a certain total of apprehension."

"Why," demanded Mortimer, "didn't he stay in France?"

"Exactly," said Mr. Blade. "What I have been asking myself. Why?"

"You and I," said Mortimer, "would do well to step softly and peer around corners before we turn them."

"I have been doing so."

"And," said Mortimer, "he's fallen for Martha Bundy. At least he is seen with her a great deal."

"Fancy," said Mr. Blade, somewhat ironically, "your being rivals! A situation. Other important matters disposed of, I could derive amusement from it."

Martha Bundy was in a state of mind. She was not happy; she was not satisfied. There was something vague, something very much craved by her, but she was unable to identify it. Freedom she had beyond the verge of license—if she cared to voyage that far—but mere freedom seemed altogether inadequate.

It was as if she stood on a noisy crowded corner day after day and day after day—jostled and shouldered about—waiting for someone or something to pass. It would have been less irritating if she knew what she hoped to become. She was intensely ambitious in an incoherent, formless way; and accused herself bitterly because she did not achieve. Nevertheless she had set no definite goal. It was simply that she wanted to achieve something—anything worth achieving.

"Or to be achieved by something."

"Darn what?"

"Everything," said Martha. "What's it all about?"

"Oh, that old question! Personally I don't think it's all about anything."

"What becomes of us eventually?"

"I suppose most of us end up by getting married. Some night when we're tight—or because we get sorry for some man—or for some darn reason. And end up with a husband to support." She widened her big eyes.

"It's unfair."

"To whom?"

"Women."

Jerry shook her head. "Nothing unfair. It hits the men just the same. A woman can't marry a man very handy without having him marry her back again. Both sides get gyped."

"There must be something else—something more to life than hanging around until you fall for a man, and then hanging around."

"Listen, Precious," said Jerry. "A woman has her choice of two things: to be married, or to be out of luck."

"What," asked Martha. "Becomes of all the beauty, the poetry of life? Isn't there any?"

"I've had numbers of gentlemen guarantee it," said Jerry. "It's how they save their consciences." She widened her eyes still further. "Why," she exclaimed, "I've even heard them mention love!"

"But there is love," Martha insisted. "There's got to be that. I know my mother and father loved each other."

"Family stuff!" said Jerry briskly. Suddenly, without realizing it, Martha found herself on a side of the argument where technically, having severed her family ties and abjured all Bundys, she did not belong.

THE RETURN OF TARZAN No. 48

By Edgar Rice Burroughs

In a day and a night Tarzan covered the same distance the fifty frightened men had taken nearly a week to traverse. At last he reached the great boulder that marked the secret passage beneath the city. Like a cat he scaled its steep sides. In a moment he was running through the long, straight tunnel that led to the treasure vault.

Finally he came to the well-like shaft, upon the opposite side of which lay the dungeon with the false wall. His quick ears caught a faint sound—and translated it! 'Twas the dance of death that preceded a sacrifice. He recognized the sing-song ritual of the high priestesses' voice! A wave of horror swept over him! Was he, after all, to be just a moment too late?

Like a frightened deer, Tarzan leaped across the narrow canyon. At the false wall he tore like one possessed. With giant muscles he forced the opening. Thrusting his head and shoulders through it, he ran to the barred door. Here he was stopped, for it was proof against even such muscles as his. Turning, he ran swiftly back into the passage-way.

He heard again the monotonous voice of the high priestesses. Twenty feet above him the wall ended. Binding his grass rope to a granite slab, he threw it over the top. For a brief, sickening moment Tarzan felt the slipping of the rope to which he clung. Then the slab caught over the wall's edge. Gingerly the ape-man clambered up the frail support.

LIVE STOCK

Captain Frank Hawks, who landed here Thursday in his Wasp-powered Lockheed, the pathfinder plane for the Ford Reliability Tour, which will visit Atlanta this fall, hopped off at about 9:45 o'clock Friday morning, bound for Nashville. He was accompanied by Ray Collins, general manager of the tour. Both aeronauts were much impressed with Candler field's potentialities as well as with the progress of aviation in the south, in general, particularly with respect to aircraft construction.

Captain Hawks is one of the most colorful figures in aviation and with perhaps the exception of Colonel Charles A. Lindbergh has used airplanes for vacation and pleasure more than any other flier in the United States. His trips have taken him to every corner of the country, far into the wildernesses of Canada and south into picturesque Mexican spots, where he sought rest and recreation after strenuous record-breaking flights, for which he has a decided penchant. An airplane, four constituted Captain Hawks' honey-moon and Mrs. Hawks frequently accompany him on his trips.

After the war, during which Captain Hawks served as an instructor,

SHORTER MAIL ROUTE TO MIAMI IS PROPOSED

New Line Would Straighten Out Present Line From New York Through Atlanta.

BY GLADSTONE WILLIAMS.

Special Staff Correspondent.

Washington, D. C., August 2.—Information gained from official sources revealed today that the special inter-departmental committee appointed by President Hoover to deal with aviation matters has recommended the establishment of a more direct air mail route between Miami and New York, cutting off three hours of flying time over the present route by way of Atlanta and providing a closer schedule for South American mail deliveries relayed from Miami by the Pan American Company. The new route will not affect the present New York-Atlanta route operated by Pitcairn Aviation, Inc.

An advertisement for bids on the new route will be issued in September, it is stated. Already members of the inter-departmental committee, consisting of the various assistant secretaries of departments interested in aviation activities, have assured themselves of the results of the trip. All Georgia Air Tour and plans for the work of the chapter in connection with the Ford Reliability tour. A full attendance has been urged and all who expect to be present are asked to telephone their reservations to the secretary, at Walnut 2357 or Walnut 5049.

The next regular meeting of the Atlanta chapter of the National Aeronautic Association will be held at the Chamber of Commerce building at 12:30 o'clock Monday afternoon, at which time there will be a discussion of the results of the first "All-Georgia Air Tour" and plans for the work of the chapter in connection with the Ford Reliability tour. A full attendance has been urged and all who expect to be present are asked to telephone their reservations to the secretary, at Walnut 2357 or Walnut 5049.

Night flying over the Atlanta-Chicago air mail route will be started by early flight, according to an announcement Friday by officials of Interstate Airlines, Inc. Night flights for use in emergency landings already have been installed in a few planes of the interstate fleet at Evansville, where the company has its headquarters, and other planes are to be equipped later.

Beacon lights, to guide pilots on their night runs, are to be placed at 10-mile intervals along the 625-mile course from Atlanta to Chicago. Some of these already have been erected and others are being established every 30 miles along the route.

The United States Bureau of Standards has developed a new sound-proof airplane cabin, which, it is believed, will eliminate one of the drawbacks to increased passenger transportation in the air. The new cabin, designed by K. Burgess, director of the bureau, stated Friday that the new cabin had been perfected to such a degree that passengers will be as free from noise as when traveling on a train.

"Though airplane noises are intense and there is a limit to the weight that may be devoted to sound-proofing devices," Dr. Burgess said, "it has been found that by a comparatively moderate increase in weight the sound intensity in a cabin can be reduced to a degree where conversation can be maintained easily."

America's entry for the Schneider Cup races, to be held over the Solent, England, during September, is a 1,200-horsepower seaplane which, it is reported, is expected to attain much better than 300 miles an hour. It is a low wing monoplane powered with a Packard "X" motor and was designed for Lieutenant Al Williams, crack navy pilot.

UNION VETERAN DIES AT CORDELE

Cordele, Ga., August 2.—(Special.)

L. A. Shaw, 86, Union veteran of the Civil War, native of Massachusetts, and for 32 years a citizen of this community, died late today at the family home in Cordele. He was celebrated many reunions with the veterans of the gray hero. Funeral plans are made for Sunday afternoon.

Former Rome Woman To Be Wed Today To British Officer

New York, August 2.—(AP)—Colonel John Bigelow Dodge, of the British army, grandson of the late John Bigelow, ambassador to France under Abraham Lincoln, is to be married today to marry Mrs. Minerva Arlington Sherman, 27, of New York.

Mrs. Sherman was born in Rome, Ga., the daughter of Mr. and Mrs. John Arlington Sherman of New York and Charlotte, N. C. She was granted a divorce in Nevada in May, 1925, from Charles Austin Sherman, Jr., a Colonel Dodge, who is 35 years old, is a stock broker and was born in this city, the son of Mr. and Mrs. Charles Stuart Dodge. His home is in London.

They said the wedding will take place tomorrow.

THOUSANDS LOSE HOMES IN FLOODS ON INDIAN RIVERS

Hyderabad, Bombay, India, August 2.—(AP)—Disastrous floods have made thousands homeless in the Sind with several villages submerged. Already this year 24 inches of rain has fallen compared with an average of four inches annual rainfall. The homeless are sheltered precariously in railway stations and on canal banks.

Meidrim Named Head of Society For Seventh Term

Valdosta, Ga., August 2.—(AP)—Peter N. Meidrim, of Savannah, was re-elected for his seventh consecutive term as president of the Georgia State Agricultural society at the concluding session today of its annual convention. Cairo was selected for the 1930 meeting.

J. B. Wright, of Cairo, was re-elected vice president and A. E. Gibson, of Dawson, was re-elected secretary-treasurer. The executive committee included the following: Dalas Spruick, of Springfield; W. E. Harvin, of Edison; H. A. Petty, of Dawson; A. Whitaker, of Conyers; James H. Mills, of Jonesburg; John L. Moore, of Aragon; James Morton, of Athens; J. O. M. Smith, of Commerce; James Kelley, of Tennesse; W. Webb, of Hahira; H. L. D. Hughes, of Danville.

The program today included discussion of soil conservation by J. B. Wright, of Cairo; "The Agricultural Needs of Georgia," by Dr. J. N. Harper, of Atlanta; "Fertilizers for Georgia," by H. A. Petty, of Dawson, and an address on the Mediterranean fruit fly, by Professor J. Harold Hume, of Glen St. Mary, Fla.

The saving of three hours time between Miami and New York will be effected by straightening the present New York-Atlanta-Miami route between Richmond and Jacksonville. Instead of making the triangle around Atlanta, planes of the new route will go directly from Richmond to Jacksonville, via Raleigh, Charleston and Savannah.

The recommendations of the inter-departmental committee, submitted in the form of a report, are now in the hands of Postmaster General Walter F. Brown, who is expected to give his final approval before formally announcing the plans.

At the same time it was learned that the committee has recommended at least two other new air mail routes, one providing for a network of air mail deliveries in the territory between the two branches of the New York-Miami system. These will connect up Augusta, Columbia and a few other Carolina cities with Savannah, on the one hand, and Charlotte, on the other. Another route recommended is that proposed from Pittsburgh to Norfolk, by way of Washington, thus linking the main southern line with the important Pittsburgh industrial districts.

The new direct line to Miami will not affect the present established route from New York to Atlanta, except to cause a diversion of through traffic to Norfolk, by way of Washington, thus linking the main southern line with the important Pittsburgh industrial districts.

Extensive hearings on the several new routes that have been recommended were conducted by the inter-departmental committee last week. Since that time members of the committee have been going over the evidence and drafting a report.

SIX CONVICTS DOWN GUARD; TWO ESCAPE FROM ROAD CAMP

Jesup, Ga., August 2.—(AP)—Two of six convicts who grappled with a guard and disarmed him made good their break for liberty today at a road camp between here and Screven.

A convict named Lumpkin and a negro escaped, but the other four, who were armed with knives and pistols, prevented from making good their escape.

The six men, officers said, apparently at a prearranged signal, grabbed the guard, overpowered him and took his gun. Lumpkin and the negro jumped into a county truck and fled, but the other four were unable to board the machine and were cornered by other guards.

Officers from Jesup and Screven were called to join in the chase for two fugitives.

Former Rome Woman To Be Wed Today To British Officer

New York, August 2.—(AP)—Colonel John Bigelow Dodge, of the British army, grandson of the late John Bigelow, ambassador to France under Abraham Lincoln, is to be married today to marry Mrs. Minerva Arlington Sherman, 27, of New York.

Mrs. Sherman was born in Rome, Ga., the daughter of Mr. and Mrs. John Arlington Sherman of New York and Charlotte, N. C. She was granted a divorce in Nevada in May, 1925, from Charles Austin Sherman, Jr., a Colonel Dodge, who is 35 years old, is a stock broker and was born in this city, the son of Mr. and Mrs. Charles Stuart Dodge. His home is in London.

They said the wedding will take place tomorrow.
